## 1.0 DeSSA Support Overview

---

The Delaware System of Student Assessments (DeSSA) Portal at <http://de.portal.airast.org/> is the home for all online assessment administration information. Manuals, brochures, and information are available on the portal. Additionally, all Smarter applications can be accessed through links on the portal. DeSSA news and announcements will be posted on the [DeSSA Portal](#).

This *Test Administration Manual (TAM)* provides needed information regarding policies and procedures for the computer-adaptive Smarter English Language Arts (ELA)/Literacy and Mathematics Interim Assessments, which will hereinafter be referred to as Smarter assessments.

Testers with the paper-and-pencil or braille accommodations will still be tested using paper and pencil tests. These testers are addressed in the *Smarter Summative Paper and Pencil Test Administration Manual*.

Additional users' guides, located at <http://de.portal.airast.org/>, contain screenshots and step-by-step instructions on how to use the DeSSA assessments.

Smarter comprises several related systems or applications. All of these are accessible via the [DeSSA Portal](#).

For questions regarding the online testing system or for additional assistance, contact the DeSSA Help Desk at the American Institutes for Research (AIR). **The Help Desk is open Monday through Friday from 6:30 a.m. to 6:30 p.m. Eastern time.** During these hours, staff will respond promptly to calls.

When contacting the Help Desk, provide the representative with as much detail as possible about the issue(s) encountered and the system on which it occurred. The following information should be provided when reporting any incidents or issues:

- Test Administrator name
- SSID(s) of affected student(s)
  - Do NOT provide any other student information, as doing so may violate Family Educational Rights and Privacy Act (FERPA) policies.
- Results ID for the affected student test(s)
- Test Session ID
- List of Embedded accommodations
- Test name and grade
- Question number
- Operating system and browser version information
- Any error messages and codes that appeared, if applicable
- Information about your network configuration, if known:
  - Secure browser installation (to individual machines or network)
  - Wired or wireless Internet network setup

The Help Desk may be contacted for situations and questions as described below in [Table 1-1](#).

## 1.1 Contact Information

If you have any questions regarding *Delaware Smarter ELA/Literacy and Mathematics Interim Comprehensive Assessment (ICA) and Interim Assessment Blocks (IABs) Test Administration Manual (TAM)* please contact the Delaware Department of Education, Office of Assessment, at (302) 857-3391.

For questions or additional assistance regarding the online testing system, please contact the DeSSA Help Desk at the American Institutes for Research (AIR).

| Issue  | DeSSA Help Desk | Office of the School or District Test Coordinator | DDOE– Office of Assessment |
|--|-----------------|---|----------------------------|
| Testing environment is down or unavailable   | X               |   |                            |
| User accounts are not available or users are not able to administer tests                    | X               |   | X                          |
| Student(s) or student information is incorrect or missing                                    |                 |   | X                          |
| Preparing for online testing—downloading the secure browser, voice packs, etc.               | X               |   |                            |
| Tests showing available to students  | X               |   |                            |
| Password resets for state, district, and school users  |                 |   | X                          |
| Accommodations and supports not correct in DeSSA Test Information Distribution Engine (TIDE) |                 | X   | X                          |

## **2.0 Introduction and Overview**

---

### **2.1 About the Smarter Assessments**

The Smarter Balanced Assessment Consortium is a multistate, state-led consortium that developed next-generation assessments aligned to the Common Core State Standards (CCSS) in English language arts (ELA)/literacy and mathematics to measure student progress toward college and career readiness. For more information about the Smarter Balanced Assessment Consortium, go to <http://www.smarterbalanced.org/>.

### **2.2 About the Test in Delaware**

In 2010, the Delaware State Board of Education adopted the CCSS for Delaware classrooms, and legislation passed in July 2014 made it possible to utilize Smarter assessments to measure students' progress toward meeting those college- and career-ready standards in ELA/literacy and mathematics.

The Smarter Interim assessments are now part of the Delaware System of Student Assessments (DeSSA) for ELA/literacy and mathematics for students in grades 3–8 and high school. Each content area of these online tests consists of a computer adaptive test (CAT) as well as a performance task (PT). Throughout this document, these assessments will be referred to as the Smarter assessments for ELA/literacy and mathematics.

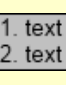

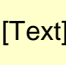

There are two types of Smarter interim assessments. The first is the Interim Comprehensive Assessment (ICA) which mirrors the summative. It follows the same blueprint with a full range of standards assessed and also follows the same approximate time requirements as the end-of-year summative. The ICA may be helpful for a teacher receiving a new student without a great deal of background information on the student's strengths and needs in ELA/literacy and/or mathematics.

The second type of interim assessment is referred to as Interim Assessment Blocks (IABs). These are shorter assessments and focused on a smaller set of targets. Also, IABs are more flexible, take less time, and designed to support instruction. IABs may be helpful as pre-tests to identify the needs of students or post-tests at the conclusion of a unit to determine the need for follow up.

ICAs and IABs are available in ELA/literacy and mathematics for students in grades 3 through 8 and high school. These online tests consist of fixed-form sessions and performance tasks (PTs). Throughout this document, these assessments will be referred to as the Smarter Interim assessments, ICAs, or IABs.

Table 2-1: Key Icons and Elements

| Icon  | Description  |
|---|--|
|  | <b>Note:</b> This symbol accompanies helpful information or reminders.   |
|  | <b>Warning:</b> This symbol accompanies important information regarding actions that may cause errors.   |
|  | <b>Caution:</b> This symbol accompanies important information regarding a task.  |
|  | Text that appears in shaded boxes provides instructions relevant to the task described: <ul style="list-style-type: none"> <li>▪ Numbered (ordered) lists provide step-by-step instructions.</li> <li>▪ Bulleted lists provide instructions that do not need to be performed in a specific order.</li> </ul> |
|  | Text in brackets is used to indicate a button or link that is clickable.   |

## 2.3 Important Test Dates

Table 2-1: Smarter Assessment Dates

| Type   | Dates                              |
|--|------------------------------------|
| Smarter Interim Comprehensive Assessment (ICA) ELA/Literacy and Mathematics, Grades 3–8 and 11 | August 31, 2015–end of school year |
| Smarter ELA/Literacy and Mathematics Blocks  | August 31, 2015–end of school year |
| Smarter Summative ELA/Literacy and Mathematics, Grades 3–8                                     | March 9, 2016–June 2, 2016         |
| Smarter Summative ELA/Literacy and Mathematics, Grade 11                                       | April 13, 2016–June 2, 2016        |
| Smarter ELA/Literacy and Mathematics Paper Pencil  | May 2, 2016–May 18, 2016           |

### 3.0 Smarter Roles and Responsibilities

|   |   |
|---|---|
|  | <p><b>Warning:</b> All test coordinators, test administrators, and school administrative staff who will be involved in Smarter administration must complete required DeSSA Training Courses.</p> <p>DeSSA entry courses provide training on security, test administration, and other information related to the administration of assessments. Additional training is required for the Smarter ELA/Literacy and mathematics online, summative assessment and Smarter Interim assessments. Successful completion of training is required prior to administration of these assessments.</p> |
|---|---|

#### 3.1 District Test Coordinators (DTCs)

District Test Coordinators (DTCs) are responsible for coordinating testing in their districts. They must ensure that the School Test Coordinators (STCs) and Test Administrators (TAs) in their districts are appropriately trained and aware of policies and procedures. DTCs must also ensure that their STCs are trained in the reporting system.

**Table 3-1: District Test Coordinator Checklist**

| Activity   | Completion   |
|--|--|
| Complete all required DeSSA training   | January–March  |
| Review scheduling and testing requirements with STCs   | Before each testing cycle  |
| Ensure all personnel, including District Test Coordinators (DTCs), School Test Coordinators (STCs), and Test Administrators (TAs) are trained on how to properly administer the DeSSA assessments by completing the required training. | Before administering tests   |
| Work with schools to review Delaware Student Information System (DELSIS) and Test Information Distribution Engine (TIDE) student rolls   | Before and during each testing cycle   |
| DTCs should ensure STCs and TAs understand protocols in the event that a student moves to a new district and/or school   | Before and during each testing cycle   |
| Review and submit incidents, exemptions, security incidents, and data reviews to DDOE from SysAID  | Ongoing; deadline for all submissions will be one week after testing window closes |
| Complete required DeSSA security forms and ensure that all STCs and TAs have completed DeSSA security forms before administering any assessments   | Before administering tests   |

### 3.2 District/School Accommodations Managers (DAMs/SAMs)

District/School Accommodations Managers are responsible for ensuring student accommodations are correctly entered into TIDE. See TIDE User Manual on the [DeSSA Portal](#) for more information.

**Table 3-2: District/School Accommodations Managers Checklist**

| Activity  | Completion                 |
|---|----------------------------|
| Attend District/School Accommodations Manager training  | January                    |
| Complete all required DeSSA TIDE training   | Ongoing                    |
| Ensure accommodations have been reviewed and updated in DeSSA TIDE. Note, some specific accommodations, such as Text to Speech (TTS) for ELA CAT assessment may only be set by the DDOE state user role. For a list of these accommodations, see the Accessibility Guidelines on the <a href="#">DeSSA Portal</a> . To apply for one of the restricted accommodations, submit the correct form to Brian Touchette at <a href="mailto:brian.touchette@doe.k12.de.us">brian.touchette@doe.k12.de.us</a> . | Before each testing window |

### 3.3 School Test Coordinators (STCs)

An STC can be a principal, vice principal, technology coordinator, counselor, or other staff member. We recommend that the STC be a person with non-instructional or limited instructional duties so that he/she can coordinate testing activities in the school.

STCs are ultimately accountable for ensuring testing is conducted in accordance with the test security and other policies and procedures established by the Delaware Department of Education. STCs must complete all actions in accordance with the activity listing and timeline displayed in [Table 3-3](#).

**Table 3-3: School Test Coordinator Checklist**

| Activity  | Completion                            |
|---|---------------------------------------|
| Attend School Test Coordinator training   | January–March                         |
| Complete all required DeSSA training  | Ongoing                               |
| Complete all required security forms and ensure that all TAs have completed all required security forms                                   | Before they administer any test       |
| Ensure that all TA complete Smarter assessment training modules   | Before each test window               |
| Work with technology personnel to ensure the DeSSA secure browser has been installed and is working on all computers be used with testing | Before or during testing window       |
| Complete test schedule  | Before testing window opens           |
| Review students in both DELSIS and TIDE applications before students are tested   | Before and during each testing window |
| Ensure that TAs understand protocols in the event that a student moves to a new district and/or school                                    | Before and during each testing cycle  |

|  |   |
|--|---|
| Ensure all students in Department of Services for Children, Youth and their Families (DSCYF), Delaware Adolescent Program, Inc. (DAPI), or Consortium Discipline Alternative Program (CDAP) programs have a home school record | Before and during each testing window   |
| Ensure accommodations have been reviewed and updated in DeSSA TIDE   | Before and during each testing window   |
| Enter any security issues, incidents, data reviews, unique accommodations, or exemptions required for any Smarter assessment testing window in SysAID  | Ongoing; deadline for all submissions is one week after testing window closes |

In addition, STCs who also act as TAs must review all user guides and other manuals.

### 3.4 Test Administrators (TAs)

**Note:** TAs administering the assessments may include the following:

- Delaware-certified educators (teachers, administrators, or guidance counselors);
- Paraprofessionals, if closely supervised by a Delaware-certified educator;
- Translators (if they are not Delaware-certified educators, they must be closely supervised by a Delaware-certified educator); and
- Substitute teachers (if they are not Delaware-certified educators, they must be closely supervised by a Delaware-certified educator).

If there is a severe shortage of staff, a test may be administered by:

- Student teachers acting as TAs, if closely supervised by a Delaware-certified educator, and
- Student teachers and school support staff to act as proctors.

**Table 3-4: Test Administrator Checklist**

| Activity  | Completion     |
|---|----------------|
| Review necessary manuals and user guides shown in <a href="#">Table 3-6</a> .   | Before testing |
| Complete all required DeSSA training associated with assessments to be administered   | Before testing |
| Prepare the testing environment, ensuring that students have the necessary equipment and materials as appropriate, e.g., scratch paper, pencils, and rulers, etc. | Before testing |
| Administer the DeSSA assessment, following the Directions for Administration  | During testing |
| Report testing irregularities   | After testing  |
| Dispose of all testing materials in a secure manner including print-on-request document, scratch paper, PT materials, etc.  | After testing  |

### 3.5 Training Requirements

Prior to administering a Smarter assessment, TAs must read the manuals and complete the training associated with the test to be administered.

All individuals participating in or otherwise associated with any test administration must complete the following training requirements.

**Table 3-5: Smarter Summative Training Requirements**

| Smarter Participant Role  | Required Training  | Optional Training  |
|---|--|--|
| District Test Coordinator (DTC)   | <ul style="list-style-type: none"> <li>Smarter Practice Test</li> <li>Security Module</li> <li>DeSSA TIDE Training</li> <li>DeSSA Overview</li> <li>TA Interface</li> </ul>                | <ul style="list-style-type: none"> <li>THSS training</li> <li>Let's Talk Universal Tools</li> <li>Student Interface for Online Testing</li> <li>What Is a CAT (Computer-Adaptive Test)?</li> </ul> |
| School Test Coordinator (STC)   | <ul style="list-style-type: none"> <li>Smarter Practice Test</li> <li>Security Module</li> <li>DeSSA TIDE Training</li> <li>Test Administrator Training</li> <li>DeSSA Overview</li> </ul> | <ul style="list-style-type: none"> <li>THSS training</li> <li>Let's Talk Universal Tools</li> <li>Student Interface for Online Testing</li> <li>What Is a CAT?</li> </ul>                          |
| Accommodations Manager  | <ul style="list-style-type: none"> <li>DeSSA TIDE Training</li> </ul>  | <ul style="list-style-type: none"> <li>Accessibility Guidelines</li> </ul>   |
| Test Administrator *(TA)  | <ul style="list-style-type: none"> <li>Smarter Practice Test</li> <li>Security Module</li> <li>DeSSA TIDE Training</li> <li>DeSSA Overview</li> <li>Test Administrator Training</li> </ul> | <ul style="list-style-type: none"> <li>THSS training</li> <li>Let's Talk Universal Tools</li> <li>Student Interface for Online Testing</li> <li>What Is a CAT?</li> </ul>                          |
| Other (These individuals include but are not limited to principals, paraprofessionals, translators, etc.) | <ul style="list-style-type: none"> <li>Security Module</li> <li>Test Administrator Training</li> <li>DeSSA Overview</li> </ul>   | <ul style="list-style-type: none"> <li>Let's Talk Universal Tools</li> <li>Student Interface for Online Testing</li> </ul>   |

| Smarter Participant Role                    | Required Training   | Optional Training  |

### 3.6 Test Administration Resources

The *Delaware Smarter ELA/Literacy and Mathematics Interim Comprehensive Assessment (ICA) and Interim Assessment Blocks (IABs) Test Administration Manual (TAM)* is intended for staff who play a role in the administration of Smarter assessments, such as State Users, DTCs, STCs, Accommodations Managers, and TAs. This manual provides procedural and policy guidance to implement these assessments. For a list of frequently used terms see [Appendix B: Frequently Used Terms](#). For specific questions not addressed in this manual, please contact Helen Dennis at [helen.dennis@doe.k12.de.us](mailto:helen.dennis@doe.k12.de.us).

### 3.7 Summative Assessment Test Administration Resources

This TAM is designed to complement a variety of other resources listed in [Table 3-6](#): Manuals, [Table 3-7](#): Smarter Training Modules, and [Table 3-8](#): Other Resources.

**Table 3-6: Manuals (Available on the DeSSA Portal)**

| <b>Resource</b>   | <b>Description</b>  |
|---|---|
| DeSSA TIDE User Guide   | DeSSA TIDE is the system used to manage student information and user accounts for online testing. The DeSSA TIDE User Guide provides a step-by-step approach to using the enhanced user management system.  |
| Test Administrator User Guide   | The Test Administrator User Guide supports individuals using the test delivery system applications to manage testing for students participating in the summative assessment. This resource provides information about the test delivery system, including the Test Administrator and student applications.  |
| Smarter Assessments Usability, Accessibility, and Accommodations Guidelines | The Usability, Accessibility, and Accommodations Guidelines focus on universal tools, designated supports, and accommodations for the Smarter assessments. The Guidelines are intended for school-level personnel and decision-making teams, particularly Individualized Educational Program (IEP) and 504 teams, as they prepare for and implement the Smarter assessment. The Guidelines provide information for classroom teachers, English development educators, special education teachers, and related services personnel to use in selecting and administering universal tools, designated supports, and accommodations for those students who need them. The Guidelines are also intended for assessment staff and administrators who oversee the decisions that are made in instruction and assessment. |
| Accessibility Guidelines for Delaware System of Student Assessments (DeSSA) | The Accessibility Guidelines for DeSSA provide information about identifying and documenting students who are eligible to receive designated supports and accommodations on Smarter and other DeSSA assessments. It also provides information on determining which assessments are appropriate for students and lists the designated supports and accommodations permitted on each assessment and in each content area. Finally, it explains the procedures for documenting supports and accommodations, including the necessary forms and deadlines.   |
| Smarter Mathematics/ELA Assessment Paper Pencil TAMs                        | The Smarter Mathematics/ELA Assessment Paper Pencil Test Administration Manuals will provide administration information and requirements for the administering the Paper Pencil test.   |
| Smarter ELA/Literacy and Mathematics ICA IAB TAM                            | The Smarter ELA/Literacy and Mathematics Interim Comprehensive Assessment and Interim Assessment Blocks Test Administration Manual will provide administration information and requirements for administering the interim comprehensive assessment.   |
| Technology Specifications Manual (TSM) for Online Testing                   | The Technology Specifications Manual provides technology staff with the technical specifications for online testing, including information on Internet and network requirements, general hardware and software requirements, secure browser installation, and text-to-speech function.  |
| Secure Browser Installation Manual  | The Secure Browser Installation Manual provides instructions for installing the secure browser on supported operating systems and is organized by operating system. This document is a supplement to the Technical Specifications Manual for Online Testing.  |
| Braille Requirements and Testing Manual                                     | The Braille Requirements and Testing Manual includes information about supported operating systems and required hardware and software for braille testing. It also includes a quick guide for TAs who are testing students with a braille accommodation. This manual consolidates information that was previously split between the Technical Specifications Manual and the Test Administrator User Guide.  |

**Table 3-7: Smarter Training Modules (Available in Professional Development Management System)**

| Module Name                             | Primary Audience   | Objective   |
|---|--|---|
| Accessibility and Accommodations        | <ul style="list-style-type: none"> <li>TAs</li> <li>Teachers</li> <li>STCs</li> </ul>                            | This module describes the recommended uses of available universal tools, designated supports, and accommodations for student accessibility to Smarter assessments.  |
| Let's Talk Universal Tools              | <ul style="list-style-type: none"> <li>Students</li> <li>TAs</li> <li>Teachers</li> </ul>                        | This module acquaints students and teachers with the online, universal tools (e.g., types of calculators, expandable text) available in the Smarter assessment. This module should be shown to students in a classroom/group setting. It is suggested that teachers be in the room to answer questions from students as they view the module. |
| Performance Task (PT) Overview          | <ul style="list-style-type: none"> <li>DTCs and STCs</li> <li>Teachers</li> </ul>                                | This module provides an overview of what a performance task is and the purpose of the classroom activity as it pertains to the performance task.  |
| Student Interface for Online Testing    | <ul style="list-style-type: none"> <li>Students</li> <li>DTCs and STCs</li> <li>TAs</li> <li>Teachers</li> </ul> | This module explains how to navigate the Student Interface.   |
| What Is a CAT (Computer-Adaptive Test)? | <ul style="list-style-type: none"> <li>District and School Test Coordinators</li> <li>Teachers</li> </ul>        | This module provides the characteristics and advantages of a CAT.   |

**Table 3-8: Other Resources (Available on the DeSSA Portal)**

| Resource       | Description   |
|----------------|---|
| Practice Test* | <ul style="list-style-type: none"> <li>Practice Tests include items and performance tasks for each grade level (3–8 and 11). The Practice Tests provide a preview of the item types included in the Smarter assessment. Item types are listed and described in <a href="#">Appendix J: Item Types</a>.</li> <li>Link to the Practice Tests: <a href="#">DeSSA Portal</a>. See also <a href="#">Appendix K: Practice Tests and Training Tests</a> for additional information about the Practice Tests.</li> </ul>    |
| Training Test* | <ul style="list-style-type: none"> <li>Training Tests are for TAs and students to become familiar with the format and functionality of the online test. This resource is available by grade band (3–5, 6–8, high school) and has approximately eight to nine mathematics and six ELA items per grade band.</li> <li>Link to the Training Test: <a href="#">DeSSA Portal</a>. See also <a href="#">Appendix K: Practice Tests and Training Tests</a> for additional information about the Training Tests.</li> </ul> |

\* The Practice Tests and Training Tests can be accessed as a “guest” without login credentials. However, if users want to access either of these sites as a TA (required to administer a braille practice or training test), a login is required, and the TA will need access to the Identity Management System (IMS) and DeSSA application. The Practice Tests and Training Tests do not require use of the secure browser, but some accessibility features (such as text-to-speech) are only available through the secure browser.

## 4.0 Ensuring Test Security and Security Procedures

---

The security of DeSSA assessments and the confidentiality of student information are vital to maintaining the validity, reliability, and fairness of assessment results. Administering the Smarter summative assessment and interactions with the summative item pool require test administrators and all those involved in the test administration process to adhere to the strict security protocols discussed during the DeSSA security training module. Security policies and procedures for the summative assessment are detailed in the Smarter Summative Test Administrator (TA) training and manual.

During the administration of an Interim Comprehensive Assessment (ICA) and Interim Assessment Blocks (IABs), the security expectations remain the same for students as the summative. However, due to the “more open nature” of the ICA and the IABs, the security status of interims is considered *not secure but not public*.

### 4.1 Not Secure but Not Public Policy

The premise of “not secure but not public” is based on the value of limiting the exposure of interim items such that the items can serve to provide valid information throughout the school year while still allowing the use of the interim assessments as part of teacher’s professional practice. To that end, test security relating to students will remain essentially the same as discussed in the DeSSA Security Manual and associated training module. The testing environment must be secure, i.e., students should not have phones or cameras, and follow the testing procedures also described in the Smarter ELA/Literacy and Mathematics Online Summative TAM on the [DeSSA Portal](#). The major differences in security requirements associated with the Interim Assessments relate to the activities that occur following the administration of these assessments.

Once students complete the Interim Assessments, the non-machine scored student responses will be transmitted to the TA administering the assessment via the Teacher Hand-Scoring System (THSS). Teachers view items while accessing student responses and online resources—rubrics, exemplars, and training guides—to complete the scoring process and submit the scores.

With the implementation of the Interim Assessments, teachers are able to collaborate with other trained scorers to review, discuss, score, and make instructional decisions in a closed environment. Student responses may be displayed, such as on a Smart Board, within a closed environment in order to facilitate discussion and make formative decisions. Questions regarding the ***not secure but not public*** policy should be addressed to the School Test Coordinator (STC) for elevating to the District Test Coordinator (DTC) and the DDOE. Teachers must maintain the privacy of students consistent with district policies and the Family Educational Rights and Privacy Act (FERPA).

**Important:** Federal Law—the Family Educational Rights and Privacy Act—prohibits the release of any student’s personally identifiable information. Any printed materials must be securely stored and then shredded.

[Table 4-1](#) addresses acceptable Interim Assessment practices within the *not secure but not public* policy. Not acceptable practices are related in [Table 4-2](#).

**Table 4-1: Acceptable Interim Assessment Practices Within the “Not Secure but Not Public” Policy**

| Acceptable/<br>Required            | Description   |
|------------------------------------|---|
| Student seating                    | Students must be seated so there is enough space between them to minimize opportunities to look at each other’s work, or they should be provided with tabletop partitions.  |
| Signage                            | If helpful, place a “Testing—Do Not Disturb” sign on the door or post signs in halls and entrances rerouting hallway traffic in order to promote optimum testing conditions.  |
| Quiet environment                  | Provide a quiet environment void of talking or other distractions that might interfere with a student’s ability to concentrate or compromise the testing situation.   |
| Students supervised                | Students are actively supervised during the entire administration process.  |
| Access to allowable resources only | Students must have access to and use of only those allowable resources identified by Smarter that are permitted for each specific assessment (or portion of an assessment).   |
| Testing through secure browser     | Administration of the Smarter Interim assessment can take potentially two forms:<br>1. The test being administered to a student through the Student Interface via a secure browser<br>2. The test being projected to a group of students through guided discussion with the teacher—this will require the teacher to create a test session and to sign in as a student in the class |
| Secure disposal of materials       | The destruction of printed materials and scratch paper is required after the completion of any test administration session.   |
| Additional staff in room           | Test Security Training is required for all teachers and staff present during Interim Assessment administration (PDMS #xx) and have a signed test security form on file. Only employees of the school/district are permitted during an Interim Assessment session.   |
| Reviewing student responses        | Non-machine scored items will be reviewed and scored by trained local educators involved in the Interim Assessment administration process using the THSS. This process may take place in a collaborative format, such as a professional learning community (PLC), to advance instructional best practices while supporting the needs of students.                                   |
| Printing of materials              | It is allowable to print teacher guides, rubrics, and exemplars that are in the THSS even if they are labeled “secure” or “do not reproduce.” Once printed these materials must either be destroyed immediately after use or must be stored in a locked location. The information is considered secure but can be viewed by appropriate educators for scoring or training purposes. |
| Discussing scores with students    | After the test administration has occurred, it is allowable for a teacher to review responses with the student who completed the test. The teacher should review only responses that are from that student.   |

**Table 4-2: Not Acceptable Interim Assessment Practices Within the “Not Secure but Not Public” Policy**

| NOT Acceptable   | Description   |
|--|---|
| Access to electronic devices is not acceptable                     | Students cannot possess or have access to unauthorized electronic devices that allow availability to outside information, communication among students, or photographing or copying test content. This includes, but is not limited to, cell phones, personal digital assistants (PDAs), iPods, cameras, and electronic translation devices. Please refer to the DeSSA Test Security Manual.  |
| Access to digital, electronic, or manual devices is not acceptable | No digital, electronic, or manual device may be used to record or store an item, reading passage, or prompt. Similarly, these materials shall not be discussed with or released to anyone via any media, including but not limited to fax, e-mail, social media websites.   |
| Access to assessments by others is not acceptable                  | Only students who are testing or involved in an instructional activity with a trained TA can observe assessment items. Students who are not being tested or unauthorized staff must not be in the room where a test is being administered.  |
| Answer key development is not acceptable                           | No answer key may be developed for test items.  |
| Use of “un-secure” browser is not acceptable                       | Administration of an ICA or IABs is permitted only through the Student Interface via a secure browser.  |
| Assisting a student is not acceptable                              | It is not permissible to assist students while they are taking the Interim Assessment. Any discussion of a student response needs to occur following the student completion and submission of the Interim Assessment. Students must receive appropriate accommodations and supports, but a TA cannot assist a student during an individual test administration unless specified in the student’s IEP or Section 504 plan. This could lead to confusion during the Summative Assessment and security violations. |

Refer to [Appendix C: What to Do When Guide and Fixed Form Pause Rule Scenarios](#) for more detailed information regarding test situations.

The test administration must be conducted in a secure environment with appropriate resources and materials. Students may have access to and use the additional required resources listed in [Table 4-3](#).

**Table 4-3: Required Resources**

| Content Area | Fixed-Form Items  | Classroom Activity   | Performance Task  |
|--------------|---|--|---|
| ELA          | <ul style="list-style-type: none"> <li>Headphones are required for the listening portion of the ELA assessment and for students requiring text-to-speech.</li> <li>Scratch paper should be provided for note taking if necessary.</li> <li>Pen or pencil.</li> <li>Online test keyboard navigation symbols (found in the Test Administrator User Guide).</li> <li>DDOE-approved keyboard navigation symbols can be provided.</li> <li>Posters offering encouragement.</li> </ul>  | <ul style="list-style-type: none"> <li>Pen or pencil.</li> <li>Scratch paper should be provided for note taking if necessary.</li> </ul> | <ul style="list-style-type: none"> <li>Headphones are required for some performance tasks and for students requiring text-to-speech.</li> <li>Scratch paper should be provided for note taking if necessary.</li> <li>Pen or pencil.</li> <li>Online test keyboard navigation symbols (found in the Test Administrator User Guide).</li> <li>DDOE-approved keyboard navigation symbols can be provided.</li> <li>Posters offering encouragement.</li> </ul>   |
| Mathematics  | <ul style="list-style-type: none"> <li>Headphones are required for students needing text-to-speech and/or audio glossaries.</li> <li>Embedded calculator will be available for some mathematics items in grade 6 and above.</li> <li>Scratch paper is required for all grades.</li> <li>Graph paper is required for grade 6 and above.</li> <li>Pen or pencil.</li> <li>Online test keyboard navigation symbols (found in the Test Administrator User Guide).</li> <li>Department-approved keyboard navigation symbols can be provided.</li> <li>Posters offering encouragement.</li> </ul> | <ul style="list-style-type: none"> <li>Pen or pencil.</li> <li>Scratch paper should be provided for note taking if necessary.</li> </ul> | <ul style="list-style-type: none"> <li>Headphones are required for students needing text-to-speech and/or audio glossaries.</li> <li>Embedded calculator will be available for all mathematics PT items in grade 6 and above.</li> <li>Scratch paper is required for all grades.</li> <li>Graph paper is required for grade 6 and above.</li> <li>Pen or pencil.</li> <li>Online test keyboard navigation symbols (found in the Test Administrator User Guide).</li> <li>Department-approved keyboard navigation symbols can be provided.</li> <li>Posters offering encouragement.</li> </ul> |

## **4.2 Destroying Test Materials**

As a reminder, unless using scratch paper during the performance task (PT), those test materials identified in the DeSSA Test Security Manual must be securely shredded immediately following each test session and may not be retained from one test session to the next. Scratch paper used during the PT should be handled according to the guidance provided in the DeSSA Test Security Manual.

## 5.0 Technology Infrastructure

---

Prior to test administration, District Test Coordinators (DTCs), School Test Coordinators (STCs), Technology Coordinators, and Test Administrators (TAs) should review the technology infrastructure at their schools.

### 5.1 Technology Resources

The Technical Specifications Manual for Online Testing, located on the [DeSSA Portal](#), provides Technology Coordinators with the technical specifications for online testing, including information about Internet and network requirements, hardware and software requirements, secure browser installation, and text-to-speech functionality.

### 5.2 The Secure Browser

Students must log in through the appropriate secure browser provided for the DeSSA Test Delivery System. The secure browser is designed to ensure test security by prohibiting access to external applications or navigation away from the test. The secure browser must be used to access the DeSSA Interim Comprehensive and Summative Assessments. As an additional option, the training tests can be accessed using the secure browser.

The [DeSSA Portal](#) contains instructions for downloading and installing the secure browsers. Your school's or district's Information Technology (IT) staff can help to ensure that the secure browsers have been installed correctly on all computers to be used for testing at your location. If you are not sure that the secure browsers have been installed or you have questions, contact your school administrator or IT staff prior to administering tests.

While the secure browser is an integral component of test security, TAs perform an equally important role in preserving test integrity. TAs should be aware of the following and employ the necessary precautions while administering online tests:

- *Close External User Applications Before Launching the Secure Browser*—Prior to administering the online tests, TAs should check all computers that will be used and close all applications except those identified as necessary by the school's Technology Coordinator. After closing these applications, the TA should open the secure browser on each computer. The secure browser will not work if the computer detects that a forbidden application is running (see below).
- *Do Not Allow Testing on Computers With Dual Monitors*—Students should not take online tests on computers that are connected to more than one monitor. Systems that use a dual-monitor setup typically display an application on one monitor screen while another application is accessible on the other screen.

#### 5.2.1 Forbidden Application Detection

This feature automatically detects certain applications that are prohibited from running on a computer while the secure browser is open. The secure browser checks the applications currently running on a computer when it is launched. If a forbidden application is detected, the student is denied entry and is shown a message that indicates which forbidden application is open. Similarly, if a forbidden application launches while the student is already in a test (e.g., scheduled tasks), the student will be logged out and a message displayed.

**Warning: If a forbidden application is launched in the background while the student is already in a test, the student will be logged out.** The student will also see a pop-up message stating that a forbidden application was detected.

This often occurs when Internet Explorer or another application attempts a software auto-update. AIR recommends checking all scheduled software auto-updates to ensure that they will take place outside of planned testing hours. Users may also see this message when trying to use permissive mode. In addition, if students are using Zoom Text or Dragon with permissive mode, they might encounter this error message.

### 5.2.2 Accessing the Student Testing Site on iPads and Android Tablets

Tablets and Chromebooks should be ready for testing **before** giving them to students. For detailed instructions on ensuring tablets and Chromebooks are ready for use, refer to the *Technical Specifications Manual for Online Testing*, which is available on the [DeSSA Portal](#).

### 5.2.3 Configuring iPads

1. Tap the **AIRSecureTest** secure browser icon.
2. If the Launchpad page displays, select [Delaware] and then [Delaware System of Student Assessments] as the test administration program. (This Launchpad page appears once.) The student login page will display.
3. Press the [Home] button three times in quick succession. This will enable Guided Access.
4. Tap the [Start] button in the upper right corner. Guided Access is now activated and the student can log in.

### 5.2.4 Configuring Android Tablets

1. Tap the **AIRSecureTest** secure browser icon.
2. If the secure browser keyboard is not selected, you will need to follow the prompts on the screen. When the secure browser keyboard is selected, then the secure browser application will open.
3. The Launchpad page displays, select [Delaware] and then [Delaware System of Student Assessments] as the test administration program. (This Launchpad page appears once.) The student login page will display.

### 5.2.5 Configuring Chromebooks

1. From the [Apps] link on the Chrome OS login screen, select the **AIRSecureTest** secure browser icon.
2. The Launchpad page displays, select [Delaware] and then [Delaware System of Student Assessments] as the test administration program. (This Launchpad page appears once.) The student login page will display.

See [Appendix G: Secure Browser for Testing](#) for additional guidelines about using the secure browser.

## 6.0 General Test Administration Information

This section provides an overview of the online testing environment and guidelines for test administration of the Smarter Interim Assessments. Use this section to become familiar with what students will experience in accessing the assessment, how to prepare for the assessment, and to review general rules for online testing. Test Administrators (TAs) should become familiar with this section well in advance of the test date so materials for login, accommodations, and exemptions described below can be assembled.

### 6.1 Overview of ICA

The ICAs are available in ELA/literacy and mathematics for students in grades 3–8 and high school. These assessments are comprehensive in nature and follow the same blueprint as the Smarter summative assessment.

#### 6.1.1 Scheduling Time for ICA Testing

The ICA mirrors the summative and, as such, the approximated time requirements will be the same. [Table 6-1](#) contains the estimated times it will take most students to complete the Smarter assessment based on the time it took students to complete the Smarter Balanced Pilot and Field Tests.

**Table 6-1: Estimated Testing Times for ICAs**

| Content Area | Grades | Fixed Form Test<br>hrs:mins | Performance Task<br>hrs:mins | Total<br>hrs:mins | Classroom Activity<br>(administered prior to the PT)*<br>hrs:mins | Total<br>hrs:mins |
|--------------|--------|-----------------------------|------------------------------|-------------------|---|-------------------|
| ELA/Literacy | 3–5    | 1:30                        | 2:00                         | 3:30              | 0:30  | 4:00              |
|              | 6–8    | 1:30                        | 2:00                         | 3:30              | 0:30  | 4:00              |
|              | 11     | 2:00                        | 2:00                         | 4:00              | 0:30  | 4:30              |
| Mathematics  | 3–5    | 1:30                        | 1:00                         | 2:30              | 0:30  | 3:00              |
|              | 6–8    | 2:00                        | 1:00                         | 3:00              | 0:30  | 3:30              |
|              | 11     | 2:00                        | 1:30                         | 3:30              | 0:30  | 4:00              |
| Both         | 3–5    | 3:00                        | 3:00                         | 6:00              | 1:00  | 7:00              |
|              | 6–8    | 3:30                        | 3:00                         | 6:30              | 1:00  | 7:30              |
|              | 11     | 4:00                        | 3:30                         | 7:30              | 1:00  | 8:30              |

**\* Note:** Classroom activities are designed to fit into a 30-minute window; however, the time within the window will vary due to the complexity of the topic and individual student needs.

When developing a testing schedule, use the estimated testing times to calculate the number of days and the amount of time it will take to complete a test in each content area and grade level.

### 6.1.2 Duration and Timing Information for ICA ELA and Mathematics

Scheduling details for each of the Smarter components are included in [Table 6-2](#) and Table 6-3. Note that the duration, timing, break/pause rules, and session recommendations vary in each content area and component.

**Table 6-2: Assessment Sequence—ELA ICA only**

| ELA                             | Fixed-Form Items   | Classroom Activity  | Performance Task   |
|---------------------------------|--|---|--|
| Number and Duration of Sessions | <p>Recommendations:</p> <ul style="list-style-type: none"> <li>No fewer than two sessions (recommended) and no more than six sessions (rare/extreme).</li> <li>Session durations range from 40–60 minutes.</li> </ul>      | <p>Recommendations:</p> <ul style="list-style-type: none"> <li>Administer activity in one session.</li> <li>Approximate session duration is 30 minutes.</li> <li>Activity should occur one to three days prior to PT.</li> <li>Activity should NOT occur on the same day as the ELA PT</li> </ul> | <p>The PT is presented in two parts.</p> <p>Recommendations:</p> <ul style="list-style-type: none"> <li>Administer in two sessions corresponding to Parts 1 and 2 of the PT.</li> <li>Session durations range from 60–120 minutes.</li> </ul>  |
| Breaks Within Sessions          | <p>Breaks can be provided during the test sessions using the software's pause feature. If the test is paused for more than 20 minutes, the student will not be able to go back to items on the previous screens.</p>       | N/A   | <p>The PT is presented in two parts. Students can take breaks within Parts 1 and 2; however, once a student moves to Part 2, he/she will not be able to review or revise items in Part 1.</p> <ul style="list-style-type: none"> <li>Recommendation: Students complete Part 1 in one test session and Part 2 the next school day.</li> </ul> |

Mathematics PT items are presented on a single screen. Following a break, students will have access to the same items.</p>    |
| Total Duration                  | <p>Once a student has started the fixed form items, they will be available for 45 days.</p> <ul style="list-style-type: none"> <li>Recommendation: Students complete this portion within five days of starting it.</li> </ul>  | N/A   | <p>Once a student has started the PT, it will be available for 10 days.</p> <ul style="list-style-type: none"> <li>Recommendation: Students complete the PT in one day.</li> </ul> |

## 6.2 Overview of IABs

The IABs are available in ELA/literacy and mathematics for students in grades 3–8 and high school. Each content area of these online assessments is shorter and times will vary by block.

### 6.2.1 Recommended Order of IABs

The classroom activity should occur prior to the administration of a PT.

### 6.2.2 Assessments Available for IAB ELA/Literacy—Grades 3–8 and High School

| IAB ELA/Literacy Block Name                                  | Grade |   |   |
|--|-------|---|---|
|  | 3     | 4 | 5 |
| Read Literary Texts  | X     | X | X |
| Read Informational Texts                                     | X     | X | X |
| Edit/Revise  | X     | X | X |
| Brief Writes   | X     | X | X |
| Listen/Interpret   | X     | X | X |
| Research   | X     | X | X |
| Informational Performance Task <sup>* N/A in 2015/2016</sup> |       |   |   |
| Opinion Performance Task                                     | X     |   |   |
| Narrative Performance Task                                   |       | X | X |

| IAB ELA/Literacy Block Name                              | Grade |   |   |
|--|-------|---|---|
|  | 6     | 7 | 8 |
| Read Literary Texts                                      | X     | X | X |
| Read Informational Texts                                 | X     | X | X |
| Edit/Revise  | X     | X | X |
| Brief Writes   | X     | X | X |
| Listen/Interpret   | X     | X | X |
| Research   | X     | X | X |
| Explanatory Performance Task                             |       | X | X |
| Argument Performance Task                                | X     |   |   |
| Narrative Performance Task <sup>* N/A in 2015/2016</sup> |       |   |   |

| IAB ELA/Literacy Block Name                             | Grade |
|---|-------|
|   | HS    |
| Read Literary Texts                                     | X     |
| Read Informational Texts                                | X     |
| Edit/Revise   | X     |
| Brief Writes  | X     |
| Listen/Interpret  | X     |
| Research  | X     |
| Explanatory Performance Task                            | X     |
| Argument Performance Task <sup>* N/A in 2015/2016</sup> |       |

### 6.2.3 Assessments Available for IAB Mathematics—Grades 3–8

| IAB Mathematics Block Name        | Grade |   |   |
|-----------------------------------|-------|---|---|
|                                   | 3     | 4 | 5 |
| Operations and Algebraic Thinking | X     | X |   |
| Fractions                         | X     | X | X |
| Measurement and Data              | X     |   | X |
| Numbers and Operations in Base 10 |       | X | X |
| Mathematics Performance Task      | X     | X | X |

| IAB Mathematics Block Name   | Grade |   |   |
|--|-------|---|---|
|  | 6     | 7 | 8 |
| Ratio and Proportional Relationships                                     | X     | X |   |
| Geometry   | X     |   | X |
| Expressions and Equations  | X     | X |   |
| Expressions and Equations with Proportionality, Statistics & Probability |       |   | X |
| Number System  |       | X |   |
| Functions  |       |   | X |
| Mathematics Performance Task   | X     | X | X |

## 6.2.4 Assessments Available for IAB Mathematics—High School

| IAB Mathematics Block Name   | Content Area          | Grade |
|--|-----------------------|-------|
|  |                       | HS    |
| Linear Functions   | Algebra and Functions | X     |
| Quadratic Functions  | Algebra and Functions | X     |
| Exponential Functions <sup>* N/A in 2015/2016</sup>                          | Algebra and Functions |       |
| Polynomial Functions <sup>* N/A in 2015/2016</sup>                           | Algebra and Functions |       |
| Radical Functions <sup>* N/A in 2015/2016</sup>                              | Algebra and Functions |       |
| Trigonometric Functions <sup>* N/A in 2015/2016</sup>                        | Algebra and Functions |       |
| Transformations in Geometry <sup>* N/A in 2015/2016</sup>                    | Algebra and Functions |       |
| Right Triangle Ratios in Geometry  | Geometry              | X     |
| Three-Dimensional Geometry <sup>* N/A in 2015/2016</sup>                     | Geometry              |       |
| Proofs <sup>* N/A in 2015/2016</sup>   | Geometry              |       |
| Circles <sup>* N/A in 2015/2016</sup>  | Geometry              |       |
| Applications <sup>* N/A in 2015/2016</sup>                                   | Geometry              |       |
| Interpreting Categorical and Quantitative Data <sup>* N/A in 2015/2016</sup> | Other                 |       |
| Probability <sup>* N/A in 2015/2016</sup>                                    | Other                 |       |
| Making Inferences and Justifying Conclusions <sup>* N/A in 2015/2016</sup>   | Other                 |       |
| Mathematics Performance Task   | Other                 | X     |

## 6.3 Assessment Participation

### 6.3.1 Participation of Students With Disabilities and/or English Language Learners

Smarter Balanced has crafted a comprehensive accessibility and accommodations framework for all students and those with special assessment needs. The Consortium has also developed a variety of universal tools that will be embedded in the Smarter Balanced test delivery engine as well as a variety of designated supports and accommodations.

Consistent with the Smarter testing plan, all students, including students with disabilities (SWDs), English language learners (ELLs), and ELLs with disabilities, should have equal opportunity to participate in the Smarter assessments. Please refer to the Accessibility Guidelines for Delaware System of Student Assessments (DeSSA) located on the [DeSSA Portal](#) for additional information on selecting Smarter accommodations and supports.

All students enrolled in grades 3–8 and high school are required to participate in the Smarter Mathematics Assessment except:

- Students with the most significant cognitive disabilities who meet the criteria for the ELA/literacy alternate assessment based on alternate achievement standards (approximately 1% or fewer of the student population).
- Students with the most significant cognitive disabilities who meet the criteria for the mathematics alternate assessment based on alternate achievement standards (approximately 1% or fewer of the student population).

- ELLs who enrolled within the last 12 months prior to the beginning of testing in a U.S. school have a one-time exemption. These students may instead participate in their state's English language proficiency assessment consistent with state and federal policy. Students who are participating in the Interim Comprehensive Assessments or Interim Assessment Blocks may also have an exemption from completing the ELA assessment.

School personnel should follow federal and state policies regarding student participation.

## 6.4 General Rules of Online Testing

This section provides a brief overview of the general test administration rules for different portions of the test as well as information about test tools and accommodations. For more advanced information, refer to the Test Administrator User Guide located on the [DeSSA Portal](#).

### 6.4.1 Basic Online Testing Parameters

- Fixed-form items and PTs will be presented as separate tests. Students may not return to a test once it has been completed and submitted.
- Within each test there may be segments. For example, mathematics tests for grades 6 and above include a segment with an embedded calculator available and another segment where the embedded calculator is not allowed and is not available for testing. A student may not return to a segment once it has been completed and submitted.
- Students **must answer all test items on a page** before going to the next page. Some pages contain multiple test items. Students may need to use the vertical scroll bar to view all items on a page.
- Students may mark items for review and use the Past/Marked dropdown list to return to those items.

### 6.4.2 Pause Rules

During the fixed form portion of the test, if a test is paused for more than 20 minutes the student is:

- Required to log back in to the student interface.
- Presented with the test page containing the test item(s) he or she was working on when the test was paused if the page contains at least one unanswered item OR with the next test page if all items on the previous test page were answered.
- NOT permitted to review or change any previously answered test items even if they are marked for review, with the exception of items on a page that contains at least one item that was not answered yet.
- See [Appendix C: What to Do When Guide and Fixed Form Pause Rule Scenarios](#).
- Any highlighted text and notes on the digital notepad will not be saved when a test is paused regardless of how long the test is paused.
- In the event of a technical issue, e.g., power outage or network failure, students will be logged out and the test will automatically be paused. The students will need to log in upon resuming the test.

During the performance task portion of the test:

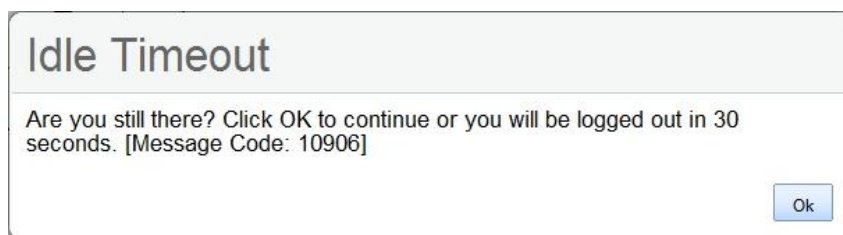

- **There are no pause restrictions.** If a test is paused for 20 minutes or more, the student can return to the section and continue typing his or her responses.

- Any highlighted text and notes on the digital notepad will not be saved when a test is paused regardless of how long the test is paused.
- In the event of a technical issue, e.g., power outage or network failure, students will be logged out and the test will automatically be paused. The students will need to log in upon resuming the test.

### 6.4.3 Test Timeout Due to Inactivity

As a security measure, students and TAs are automatically logged out of the test after 20 minutes of test inactivity. *Activity* is defined as selecting an answer or navigation option in the test, e.g., clicking [Next] or [Back] or using the Past/Marked Questions dropdown list to navigate to another item. Moving the mouse or clicking on an empty space on the screen is not considered activity.

Before the system logs the student out of the test, a warning message will be displayed on the screen. If the student does not click [Ok] within 30 seconds after this message appears, he or she will be logged out. Clicking [Ok] will restart the 20-minute inactivity timer.

**Caution:** As a security measure, TAs are automatically logged out after 20 minutes of user inactivity and student inactivity in the session, which will result in closing of the test session.

### 6.4.4 Test Expiration

#### Fixed-Form Items

A student's fixed form remains active until the student completes and submits the test or 45 calendar days after the student has begun the test, and the extended response has been hand scored. Refer to [Section 10.2 Hand Scoring of Specific Test Items](#), for additional information on hand-scoring requirements. However, it is recommended that students complete the fixed form portion of the test within 5 days of starting the designated content area.

#### Performance Task (PT)

The PT is a separate test that remains active for only 10 calendar days after the student has begun the PT. However, it is recommended that students complete the PT within 3 days of starting in each content area.

**Note:** If a student starts the test near the end of the testing window, the student must finish before the administration window officially closes. The test will automatically end on the last day of the scheduled administration window, even if the student has not finished.

### 6.4.5 Classroom Activity

The purpose of the classroom activity is to introduce students to the context of a performance task so they are not disadvantaged in demonstrating the skills the task intends to assess. Classroom Activities do not address content information; instead, they focus on vocabulary and key contextual topics. The classroom activity is designed to be an introduction and not an assessment.

Guidelines for administering the classroom activity for ELA/literacy or mathematics are as follows:

- A certified teacher should administer a classroom activity. It is preferable—but not essential—that the teacher or TA administering the classroom activity have content knowledge in the area of assessment.
- The teacher or TA should be able to record information—including any tables, graphics, formulas, or other information contained in the classroom activity materials—for students to see, such as on a chalkboard or dry-erase board. Computers, projectors, and other technology are allowed but not required for the classroom activity. Recorded information should not be available when students participate in the PT. When the PT is being administered, content from the classroom activity should not be available, i.e., do not put any content from the classroom activity on the board, in handouts, etc.
- Students may take notes during this time, but the notes may not be used during the PT. Notes must be collected before proceeding to the PT and stored in a secure location until securely shredded.
- There should be no more than a three-day lapse between the classroom activity and the PT administration. Inadvertently administering the PT before or without the classroom activity constitutes a testing irregularity.
- The classroom activity should be administered to students only once and is designed to be completed in approximately 30 minutes.
- The classroom activity is non-secure; however, it should not be supplemented with any other content.
- Consider the appropriate accommodations that should be provided to students in the class that would normally be provided during instruction. [Appendix E: Accessibility Guidelines for Classroom Activities](#) contains information on these student resources that can be provided during the classroom activity.
- In the event a student is absent during the classroom activity, a make-up session must be scheduled. To the greatest extent possible, the make-up session should provide students an opportunity to interact with the teacher or TA and his or her peers.

### 6.4.6 Accessing ICA and IAB Classroom Activities

Classroom activities for ICAs and IABs are located on the Smarter ELA/literacy and mathematics page on the [DeSSA Portal](#). These classroom activities are used for the ICA and the IAB Performance Tasks only. Classroom activities for the summative will be accessed via TIDE.

## 7.0 Universal Tools, Designated Supports, and Accommodations

---

The Accessibility Guidelines for DeSSA are intended for school-level personnel and decision-making teams as they prepare for and implement the Smarter assessments. The Guidelines provide information for classroom teachers, English development educators, special education teachers, and related services personnel to use in selecting and administering universal tools, designated supports, and accommodations for those students who need them, including students on an Individual Education Plan (IEP) and Section 504 plans. The Guidelines are also intended for assessment staff and administrators to assist with decisions related to curriculum, instruction, and assessment.

The Accessibility Guidelines for DeSSA include information related to all students. They emphasize an individualized approach to the implementation of assessment practices for those students who have diverse needs and participate in large-scale content assessments. The Guidelines focus on universal tools, designated supports, and accommodations for the Smarter ELA/Literacy and Mathematics Assessments. At the same time, the Guidelines support important instructional decisions about accessibility and accommodations for students who participate in the Smarter assessments. The Guidelines recognize the critical connection between accessibility and accommodations in instruction and accessibility and accommodations during assessment.

If a school or district identifies a designated support and/or accommodation that they believe should be offered and is not available, the school or district should provide that information to Brian Touchette at [brian.touchette@doe.k12.de.us](mailto:brian.touchette@doe.k12.de.us). The state will keep a list of all requested designated supports and accommodations and provide those annually to Smarter Balanced for evaluation.

Note, some specific accommodations, such as Text to Speech (TTS) for ELA CAT assessment may only be set by the DDOE state user role. For a list of these accommodations, see the TIDE User Guide or the Accessibility Guidelines on the [DeSSA Portal](#). To apply for one of the restricted accommodations, please complete the appropriate form, found in the Accessibility Guidelines, and submit it to Brian Touchette at [brian.touchette@doe.k12.de.us](mailto:brian.touchette@doe.k12.de.us).

The complete set of Accessibility Guidelines including the full list of universal tools, designated supports, and accommodations can be found on the [DeSSA Portal](#). Please be sure to review these guidelines thoroughly before test administration.

**Note:** To help states identify similarities between the assessment resources and classroom practices, Smarter Balanced has developed a Resources and Practices Comparison Crosswalk. This Crosswalk can be found in [Appendix F: Resources and Practices Comparison Crosswalk](#).

The interim assessments and Practice/Training Tests contain embedded universal tools, designated supports, and accommodations—these are defined in [Table 7-1: Definitions for Universal Tools, Designated Supports, and Accommodations](#). Embedded resources are those that are part of the computer administration system, whereas non-embedded resources are provided outside of that system.

**Table 7-1: Definitions for Universal Tools, Designated Supports, and Accommodations**

| Type                | Definition   |
|---------------------|--|
| Universal Tools     | Access features of the assessment that are either provided as digitally delivered components of the test administration system or separate from it. Universal tools are available to all students based on student preference and selection.   |
| Designated Supports | Access features of the assessment available for use by any student for whom the need has been indicated by an educator or team of educators working with the parent/guardian and student. They are either provided as digitally delivered components of the test administration system or separate from it. This group includes students identified as ELL students, Students with Disabilities, Students with 504 plans, and General Ed Students with Supports.   |
| Accommodation       | Accommodations are changes in procedures or materials that increase equitable access during the Smarter assessments. Assessment accommodations generate valid assessment results for students who need them. They allow these students to show what they know and can do. Accommodations are available for students with documented IEPs or Section 504 plans. Consortium-approved accommodations do not compromise the learning expectations, construct, grade-level standard, or intended outcome of the assessment. |

State users, DTCs, District Accommodations Managers, STCs, and School Accommodations Managers have the ability to set embedded and non-embedded designated supports and accommodations. **Designated supports and accommodations must be set in DeSSA TIDE prior to starting a test session.**

For additional information about the availability of designated supports and accommodations, refer to the Accessibility Guidelines for DeSSA on the [DeSSA Portal](#).

All accommodations should be entered in the TIDE interface (see TIDE User Guide on the DeSSA Portal).

To help states identify similarities between the assessment resources and classroom practices, [Appendix F: Resources and Practices Comparison Crosswalk](#) lists the resources that are currently included in the Guidelines document and assists educators and decision-makers by providing a description of both the resource and its classroom equivalent.

The handout needed for one particular non-embedded accommodation, the multiplication table, can be found in [Appendix H: Multiplication Table](#).

## 8.0 Prior to Test Administration

### 8.1 Establishing Appropriate Testing Conditions

School Test Coordinators (STCs) and Test Administrators (TAs) will need to work together to determine the most appropriate testing option(s) and testing environment based on the number of computers available, the number of students in each tested grade, and the estimated time needed to complete each test. Testing students in classroom-sized groups is preferable. Establishing classroom-sized groups reduces test fear and anxiety for the students and facilitates monitoring and control for the TA.

The test administration must be conducted with appropriate resources and materials. Students may have access to and use the additional required resources listed in [Table 8-1](#). Reference the DeSSA Test Security Manual for additional guidance.

**Table 8-1: Required Resources**

| Content Area | CAT Items  | Classroom Activity   | Performance Task  |
|--------------|--|--|---|
| ELA          | <ul style="list-style-type: none"> <li>Headphones are required for the listening portion of the ELA assessment and for students requiring text-to-speech.</li> <li>Scratch paper should be provided for note taking if necessary.</li> <li>Pen or pencil.</li> <li>Online test keyboard navigation symbols (found in the Test Administrator User Guide).</li> <li>Department-approved keyboard navigation symbols can be provided.</li> <li>Posters offering encouragement.</li> </ul> | <ul style="list-style-type: none"> <li>Pen or pencil.</li> <li>Scratch paper should be provided for note taking if necessary.</li> </ul> | <ul style="list-style-type: none"> <li>Headphones are required for some performance tasks and for students requiring text-to-speech.</li> <li>Scratch paper should be provided for note taking, if necessary.</li> <li>Pen or pencil</li> <li>Online test keyboard navigation symbols (found in the Test Administrator User Guide).</li> <li>Department-approved keyboard navigation symbols can be provided.</li> <li>Posters offering encouragement.</li> </ul> |
| Mathematics  | <ul style="list-style-type: none"> <li>Headphones are required for students needing text-to-speech and/or audio glossaries.</li> <li>Embedded calculator will be available for some mathematics items in grade 6 and above.</li> <li>Scratch paper is required for all grades.</li> <li>Graph paper is required for grade 6 and above.</li> <li>Pen or pencil.</li> </ul>  | <ul style="list-style-type: none"> <li>Pen or pencil.</li> <li>Scratch paper should be provided for note taking if necessary.</li> </ul> | <ul style="list-style-type: none"> <li>Headphones are required for students needing text-to-speech and/or audio glossaries.</li> <li>Embedded calculator will be available for all mathematics PT items in grade 6 and above.</li> <li>Scratch paper is required for all grades.</li> <li>Graph paper is required for grade 6 and above.</li> <li>Pen or pencil.</li> </ul>   |

|  |  |  |  |
|--|--|--|--|

|--|--|--|--|

## **8.2 Tasks to Complete Prior to Test Administration**

- Accommodations Managers need to ensure all accommodations and designated supports have been entered into DeSSA TIDE.
- DTCs and STCs need to ensure all TAs have login information for the TA interface.
- DTCs, STCs, and TAs need to verify and/or update student demographic information and test settings.

Each student must be correctly assigned to his or her district, school, and grade in the DeSSA TIDE system. STCs and TAs will need to work with district personnel to ensure all student demographic information is updated in DeSSA TIDE.

In addition to the correct school and grade, STCs and TAs must verify that all students have accurate test settings in DeSSA TIDE, including designated supports and accommodations, embedded and non-embedded, for each content area prior to testing.

### **8.2.1 View Student Details**

This page shows the demographic information for the student you have selected. Most information on this page is read only. You cannot edit any student attributes, including personal identifier information.

Student information indicated with an asterisk (\*) must be updated in DELSIS. Any student information marked with an asterisk that is incorrect must be updated before the student can test. All DELSIS updates will be applied to the DeSSA TIDE system within two to three days.

Table 8-2: Sample Student Demographics in DeSSA TIDE

| Student information                |                         |
|------------------------------------|-------------------------|
| * Secure Student Identifier:       | 9999999652              |
| * Legal First Name:                | Alan                    |

## 8.2.2 Student Testing Restrictions

Only District and School Test Coordinators can edit student testing restrictions. If the test restriction flag is set for any content, this means the student is restricted from taking any DeSSA test, including the DCAS-Alt1, for the specific content area. To remove the test restriction flag for those students who should be tested in DCAS-Alt1, uncheck the box for the necessary content area(s).

 **Note:** The Alternate Accommodation flags are set by the DeSSA accommodation (500 and 5.01) and for each content area. Each Alternate Accommodation content area must display a checkmark (flag) in order for the student's score to be entered using the Score Entry Interface system.

 **IMPORTANT:** Any additions/edits/deletions of students must be completed **before the student can test**. The update, once made, may take up to 48 hours to appear in the DeSSA TIDE and correct in the TA interface. Failure to correct test settings before testing could result in the student's not being provided with the needed accommodations and/or designated supports at the time of testing. This is considered a testing irregularity.

For information on how to view, add, upload, and edit student information, please refer to the DeSSA TIDE User Guide located on the [DeSSA Portal](#).

|   |   |
|---|---|
|  | <p><b>Note:</b> It is important for anyone with access to student information to remember that student personal information, including SSIDs, is confidential. <b>If materials containing student personal information and/or SSIDs are distributed to students, these materials must be collected before the students leave the testing room and either securely stored to be used in a subsequent test session or shredded.</b> For additional information about security protocols, refer to <a href="#">Section 4.0 Ensuring Test Security and Security Procedures</a> of this manual and the DeSSA Test Security Manual.</p> |
|---|---|

STCs should ensure that TAs have necessary student login information. Each student will log in to the DeSSA testing system using his or her first name, SSID, and a test session ID. Prior to starting a testing session, TAs must have a record of each student's first name and SSID. This information must be provided to each student to complete the login process.

|   |   |
|---|---|
|  | <p><b>Note:</b> When a TA creates a test session, a unique session ID is randomly generated. This session ID must be provided to students before they log in. Please refer to the <i>Test Administrator User Guide</i> located on the <a href="#">DeSSA Portal</a> for detailed information on how to obtain session IDs.</p> |
|---|---|

### 8.2.3 Retrieve Classroom Activity Materials

TAs need prior planning and preparation for the classroom activity. They need to consider the following:

1. Retrieve and review the classroom activity at least one to two days prior to the planned delivery of the classroom activity.
2. The classroom activity should be administered one to three days before the PT is to be administered.

Accommodations will be available, and ELLs should have access to language supports that they regularly use during classroom instruction. For more information on the options that may be implemented during the classroom activity, please see [Appendix F: Resources and Practices Comparison Crosswalk](#).

|   |   |
|---|---|
|  | <p><b>Important:</b> If a student begins a PT without being exposed to the assigned classroom activity, the student should continue with and complete the PT. The TA must report this in SysAID as a testing irregularity as described in the Test Security Manual.</p> |
|---|---|

## 9.0 Day of Test Administration

---

**Note:** Use the following information and script to assist students with the login procedures. Please refer to the *Test Administrator User Guide* on the [DeSSA Portal](#) to become familiar with the Online Testing System.

Located in [Appendix L: Directions for Administration \(Printable Version\)](#) is an abbreviated version of the directions for administration for the Smarter assessments. Test administrators should extract a copy of this to use for administering Smarter assessments.

To ensure that all students are tested under the same conditions, the TA should adhere strictly to the script for administering the test. These instructions can be found in the boxes in bold on the following pages. When asked, the TA should answer questions raised by students but should never help the class or individual students with specific test items. **No test items can be read to any student for any content area, unless specified as an accommodation.**

**Please remember that the script must be followed exactly and used each time a test is administered.** If resuming a test and the TA is sure that all students are able to log in without hearing the login directions again, the TA may skip the italicized portions of the directions.

All directions that the TA needs to read to students are indicated by the word “SAY” and are in boxes so they stand out from the regular text. Read these directions exactly as they are written, using a natural tone and manner. If the TA makes a mistake in reading a direction, the TA should stop and say, “I made a mistake. Listen again.” Then read the direction again.

The TA should try to maintain a natural classroom atmosphere during the test administration. Before each test begins, encourage students to do their best.

Any time a student logs in to the testing system, the TA should follow this script. This includes logging in to complete the CAT items or the performance task.

### 9.1 Starting a Test Session

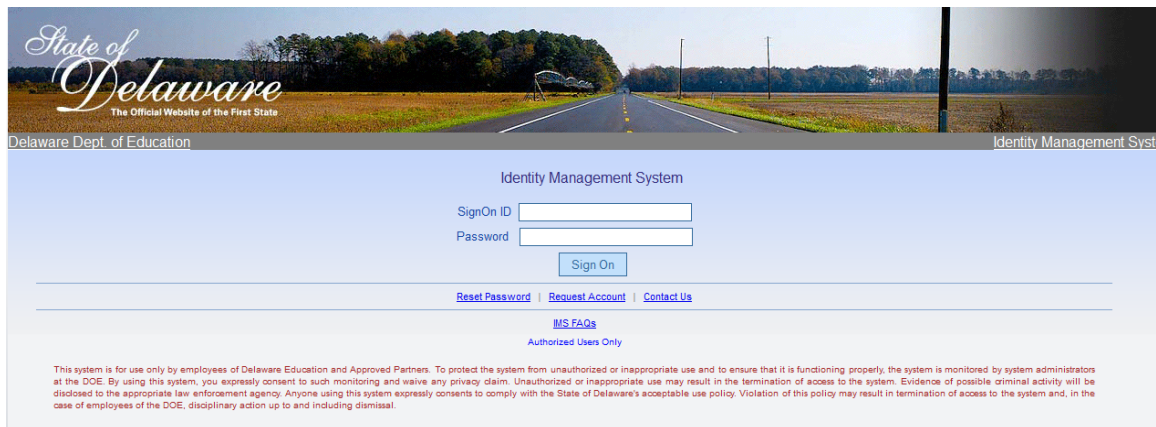

**Note:** The TA must create a test session before students can log in to the Student Testing System but no more than 20 minutes prior or the system will time out. When a TA creates a test session, a unique session ID is randomly generated.

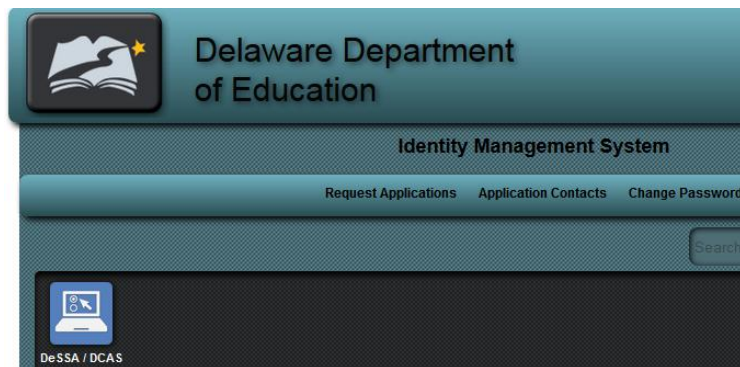

This session ID must be provided to the students before they log in and should be written down. To create a session, follow these steps:

**1. The TA logs in to the TA Interface link.**

1. Log in to IMS at <https://login.doe.k12.de.us> with your username and password:

2. Select the DeSSA/DCAS thumbnail for the DeSSA Portal.

3. Click the Smarter ELA & Mathematics user card.

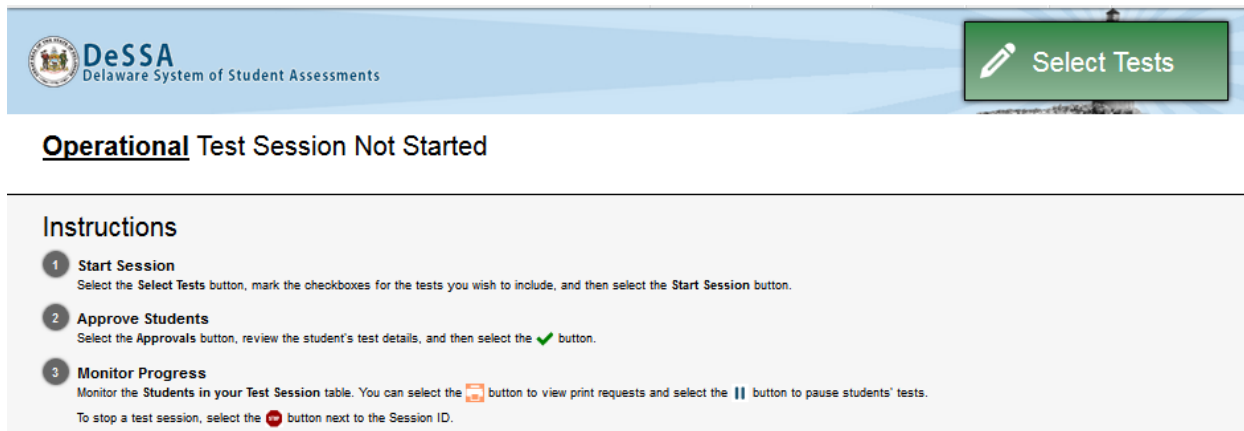

4. Select the Test Administration Card to log in to the TA Interface.

## 2. The TA creates a test session.

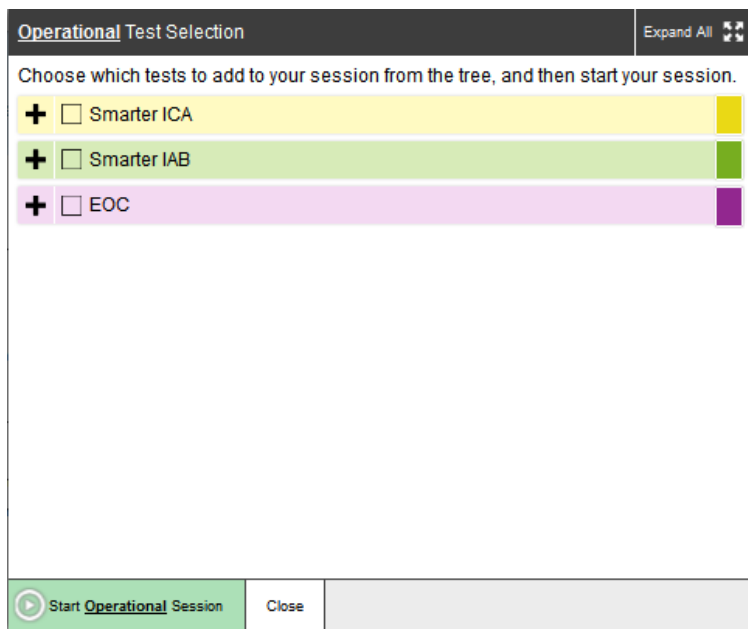

To create a testing session, the TA clicks the [Select Tests] button in the top-right corner of the Test Administration screen to open the Test Selection window.

**Figure 9-1. Test Administration Screen**

The **Test Selection** window (see [Figure 9-2](#)) allows you to select tests and start the session. Only the tests that you select will be available to students who join your session.

**Figure 9-2. Test Selection Box**

The **Test Selection** window color-codes tests and groups them into various categories. The following categories are available for the Smarter Assessments:

- Smarter Summative–CAT
- Smarter Summative–Grade (3–5)–ELA Performance Task
- Smarter Summative–Grade (6–11)–ELA Performance Task

- Smarter Summative–Grade (3–5)–Math Performance Task
- Smarter Summative–Grade (6–11)–Math Performance Task
- DCAS/EOC Assessments
- Smarter Interim Comprehensive–Fixed
- Smarter Interim Comprehensive–Performance Task
- Smarter IAB–Grade (3–5)–ELA
- Smarter IAB–Grade (6–11)–ELA
- Smarter IAB–Grade (3–5)–Math
- Smarter IAB–Grade (6–11)–Math

### *Grade and subject*

A test group may include one or more sub-groups. All test groups and sub-groups appear collapsed by default. To expand a test group, click **+** (or **Expand All**). To collapse an expanded test group, click **–** (or **Collapse All**). The TA begins the test session.

**Note:** Students are pre-assigned Performance Tasks.

### **3. The TA begins the test session.**

Select only the grade(s) and contents being assessed. If assessing students with PT, select all grade/content specific. The TA clicks on the green [Start Operational Session] button to begin the test session and generate the session ID that students use to join that test session.

A test session ID will automatically be generated and will appear in the top center of the screen. This session ID will generally have four letters followed by a dash and then a number (for example, DESSA-215C-1). Students will need this test session ID to log in to the test.

**Figure 9-3: Test Session ID**

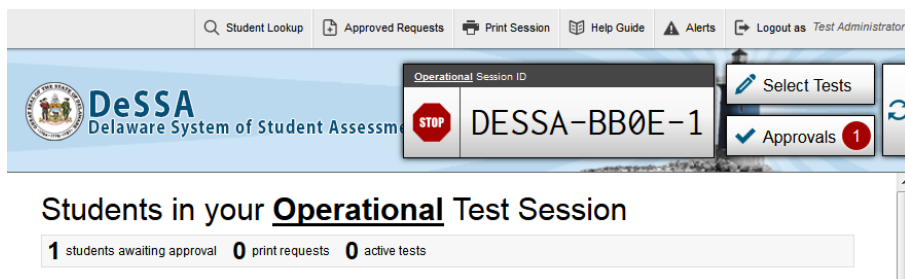

The test session must be created on the day of testing. Students from the same class who take tests at different times or with different TAs will not have the same test session ID.

[Appendix I: Coordinator Checklists](#) contains a checklist that will allow you to identify all steps to be completed before starting a testing session. This is a document that can be copied and used when you are administering a student test.

### **4. The TA informs students of the test session ID.**

The system-generated session ID appears in the top-right corner of the screen.

**SAY:** Today, you will take the Smarter Balanced [insert name of ELA or mathematics and CAT or PT] test. You will be given a test session ID that is required to start the test. If you need an individual break during the test, raise your hand and wait for my instructions and permission.

Once you have logged in, you will have to wait for me to approve the test before you can start. I will be checking that you have correctly entered the test session ID and other information.

### 5. Give students the Test Session ID.

The test session ID, the SSID, and the student's first name may be provided to students ahead of time on a card or piece of paper to help them type it into the computer accurately. Student information is confidential; therefore, the cards/papers with this information will need to be collected after each test session and securely shredded after testing is complete. The TA will be logged out of the session if there is no activity for 20 minutes by the TA or a student. **The TA should write down the session ID for his or her own records in case he/she gets involuntarily logged out of the system.** Having the session ID will allow the TA to resume the session.

 **Important:** If the ID is not written down or known and the TA tries to log in to the session after being involuntarily logged out of the system, the TA will be logged out for eight hours before he or she is able to start a new session.

TAs may also write the test session ID on a classroom dry-erase board or chalkboard or another place where students can see it. Make sure students know that the test session ID must be entered **exactly** as it is written—it is case sensitive—without extra spaces or characters. Please refer to the Test Administrator User Guide on the [DeSSA Portal](#) to become familiar with the Online Testing System.

**SAY:** Enter your first name and your state abbreviation (for our state this is DE) followed by your SSID number. Then enter the test session ID. *Raise your hand if you cannot see these numbers well enough to type them on your keyboard.*

Please do not share your SSID with anyone. This is private information.

Once you have successfully logged in, you will see a screen with your first name, SSID, school, and grade. If all of the information on your screen is correct, select [Yes] to continue. If any of the information is incorrect, please raise your hand so that you can show me what is wrong.

*Make sure all students have successfully entered their information.*

The TA should be sure that the students use their legal first names, not nicknames. If a student is unable to log in, he or she will be prompted to try again and provided with a message describing the reason (an invalid SSID, for example). If the student is still having difficulty, the TA can look up the correct information using the Student Lookup function on the TA Interface or in DeSSA TIDE. TAs may assist students with logging in if necessary.

#### Figure 9-4: Student Lookup: Quick Search

**Quick Search** **Advanced Search** Close

Enter the student's full Student ID (SSID) and click [Submit SSID] to search for that student's record. A record displays the student's name, birth date, grade, and school/district information. Searches by partial SSID are not permitted.

Note: This Student Lookup feature allows you to verify student information for login purposes only. It does not indicate whether a student is eligible to test. To verify student eligibility for a specific online assessment, please check TIDE.

SSID: 9999991234 Submit SSID

**Search Results**

First Name: Demo  
 Last Name: Student  
 SSID: 9999991234  
 Grade: 03  
 Date of Birth: 10/26/2001  
 Gender: F  
 School: DCAS Demo School A  
 District: DCAS Demo District  
 LEP:  
 Ethnicity: 5  
 Name: Student, Demo

#### 6. The TA informs students of the test session in which they are participating.

**SAY:** On the next screen, select the test you will be taking today labeled [Insert Name Of Test], e.g., ELA Grade 4 PT, and then click [Start Test]. After you have selected your test, you will see a screen with a moving bar and message saying that you are waiting for Test Administrator approval. This step helps ensure that you are taking the correct test. Please wait quietly while I verify each of your tests.

If TAs are unsure of which content area or test students are participating in during that session, TAs should contact the School Test Coordinator.

Students log in with their first name, SSID, and Session ID. Students will then confirm their identity to verify that they logged in with the correct credentials and select a test. Students may only select from tests for which they are eligible.

### Your Tests

Select a test.

**Start Math Grade 3 CAT**  
This is opportunity 1 of 1

**Start ELA Grade 3 CAT**  
This is opportunity 1 of 99

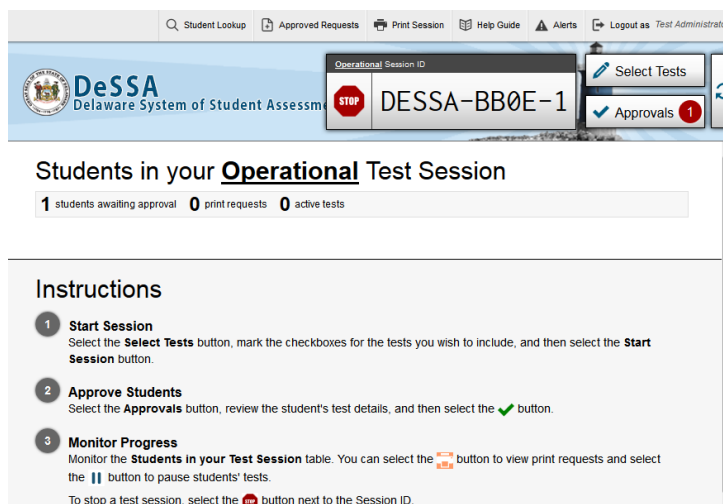

[Back to Login](#)

Students will be able to select from more than one test, for example, a PT and a CAT in both ELA/literacy and mathematics. TAs should direct students to select the appropriate test name based on what the TA is planning to administer at that time—to the content area “ELA” or “Math” and the test type “CAT” or “PT.”

### 7. The TA views and approves students who are waiting for test session approval.

After students have selected a test, the TA verifies that each student selected the appropriate test before approving that student for testing. **It is very important that the TA pays close attention to the test name prior to approving to be sure it is the correct test to be administered at that time.** To do this:

- a. Select the [Approvals (#)] button.

The screenshot shows the DeSSA Test Administrator interface. At the top, there is a navigation bar with links: Student Lookup, Approved Requests, Print Session, Help Guide, Alerts, and Logout as Test Administrator. Below this is a header section with the DeSSA logo and the text "Delaware System of Student Assessment". To the right of the header, there is a box for the Operational Session ID, which is "DESSA-BB0E-1". Next to the session ID is a red "STOP" button and a blue "Select Tests" button. Below the session ID box is a button labeled "Approvals" with a red circle containing the number "1".

The main content area is titled "Students in your **Operational** Test Session". Below this title, there is a summary bar showing "1 students awaiting approval", "0 print requests", and "0 active tests".

Below the summary bar is a section titled "Instructions" with three numbered steps:

- 1 **Start Session**  
Select the **Select Tests** button, mark the checkboxes for the tests you wish to include, and then select the **Start Session** button.
- 2 **Approve Students**  
Select the **Approvals** button, review the student's test details, and then select the **✓** button.
- 3 **Monitor Progress**  
Monitor the **Students in your Test Session** table. You can select the **🖨** button to view print requests and select the **⏸** button to pause students' tests.  
To stop a test session, select the **🛑** button next to the Session ID.

- b. A new window that shows a list of students, organized by test name, has opened. The TA should review the list to ensure that students are taking the correct content area (ELA or mathematics) and type of assessment (CAT or PT).
- c. If a student selected a test other than the one the TA plans to administer that day, e.g., selected a PT instead of a CAT or selected mathematics instead of ELA, the TA must

deny the student entry to the test session. The student may then log in again and select the correct test.

- d. When the correct test is selected, the TA clicks [✓] to approve one student or [Approve All Students] to approve all student in the session.

Approvals and Student Test Settings

✓ Approve All Students

↻ Refresh

✕ Done

1 students awaiting approval ● = Smarter ICA

Gr 03 Math ICA FxdForm

| Student Name   | SSID       | Opp # | See Details | Action |
|----------------|------------|-------|-------------|--------|
| Student1, Demo | 9999991234 | 1     | Standard    |        |
| Student2, Demo | 9999991235 | 1     | Standard    |        |

In addition to test names, it is very important that the TA verify all the setting(s) that the student should have. If the student's settings are incorrect, do *not* approve that student to move forward with testing. The TA will need to work directly with an STC or a DTC to get these settings corrected in DeSSA TIDE before approving the student to begin testing. It is important to ensure these settings are correct before the student begins testing to avoid the need for having to reset the test for the student later.

SAY: After I approve you to begin testing, you will see a screen asking you to check your test content area and settings. If all the information is correct, you may select [Yes, Start My Test]. If any of it is incorrect, please raise your hand, and I will be with you shortly.

Each student will be logging in at a different time. The TA should monitor the sessions and log in all students who are currently ready before assisting any students who are having problems.

If students will be taking an ELA assessment during the test session, read the next blue box so the students will know how to verify that their headsets are working properly.

SAY: **(Only for ELA test)** Next you should see a screen that prompts you to verify that the audio on your computer is working. Put your headsets on and select the [Click on the sound icon to hear the sound] icon. If you hear the chime, select [Yes]. If not, raise your hand, and I will be with you shortly.

### Sound Check

 Click on the sound icon to hear the sound.

If you hear the sound, click [Yes]. If not, click [No].

If the student's volume is not working, troubleshoot basic steps such as being sure the headsets are fully plugged in, that mute is not inadvertently selected, and that the audio is turned up. If the student is still experiencing issues, contact your School Technology Coordinator or help desk.

**SAY:** Before your test appears, you will see a tutorial page listing the test tools and buttons that you may use during the test or that will appear on the test. Please read this carefully. You can also find this information during your test by clicking the [Help] button in the top right corner.

You must answer each question on the screen before going on to the next question. During the test, you may see a page with no test questions. Follow the directions on the page to continue taking the test.

If you are unsure of an answer, provide what you think is the best answer; there is no penalty for guessing. If you would like to review that answer at a later time, mark the item for review by clicking the box next to the flag in the upper-right corner of the screen before going on to the next question. Flagging the item will remind you to go back and decide whether you need to change the answer during this test segment.

You may pause at any point in the test by clicking [Pause] rather than [Next] after answering an item. [The following statement only applies to the CAT.] The [Pause] button is used to stop the test. Note that pausing for more than 20 minutes will prevent you from changing any answer on previous pages of the test. Please raise your hand if you need a break and ask me prior to clicking [Pause].

Your answers need to be your own work. Please keep your eyes on your own test and remember that there should be no talking.

Please keep in mind that this test is divided into segments. When you get to the end of each segment, you will be prompted to review your answers before moving on. Once you submit your answers and move on to the next segment, you will not be able to return to the previous segment.

When you are ready to begin your test, click [Begin Test Now] at the bottom of the page.

**Note:** For the CAT portion of the test, after a pause, the student's test can be resumed at any time within the testing window up to 45 days from the start date. For the PT, there is no pause limit, but the test expires 10 days after the start.

**8. The TA monitors student progress.***Monitoring Test Selection***Students in your Operational Test Session**

| 0 students awaiting approval |            | 0 print requests | 1 active tests         | ● = Smarter ICA |                |  |   |
|------------------------------|------------|------------------|------------------------|-----------------|----------------|--|---|
| Student Name                 | SSID       | Opp #            | Test                   | Requests        | Student Status | Test Settings  | Pause Test  |
| Student, Demo                | 9999998002 | 1                | Gr 03 Math ICA FxdForm |                 | approved: 0/0  | Custom  |  |

It is very important that TAs monitor student progress throughout the test session. This includes verifying that students are participating in the appropriate content area and type of assessment (CAT or PT). The TA monitors the test each student is taking by referring to the Students in Your Test Session table in the TA Interface.

In the event a student is taking an incorrect assessment, the TA can pause the student's test. The TA should then instruct the student to log out and log in again to select the correct test.

In the rare event that a student starts a test unintentionally, e.g., selected a PT instead of a CAT or selected mathematics instead of ELA, the test's expiration timeline will be activated. If a student is unable to return to and complete the test before it expires in 10 days for a PT or 45 days for the CAT, the TA will need to submit an appeal via the DeSSA SysAID to reopen the assessment.

*Monitoring Test Progress*

Once students have started their tests, the TA should circulate through the room to ensure that all conditions of test security are maintained. If the TA witnesses or suspects the possibility of a test security incident, the STC and DTC should be contacted immediately in accordance with the security guidance provided in this manual.

The TA may also use the TA Interface to view the testing progress of any student. This site will not show test items or scores but will let the TA see how many items have been delivered to each student, e.g., question 24 of 40.

While the TA Interface is designed to automatically refresh every minute, the TA can manually refresh at any time by clicking the [Refresh Now] button at the top left of the page. Do NOT click the web browser's refresh button.

If the TA notices that a student is off task, the TA may say the following statement to the student, verbatim, to keep him or her focused.

**SAY:** It is important that you do your best. Do you need to pause the test and take a break?

If a student asks for assistance either in answering an item or manipulating an item type, the TA should gently instruct the student to review the tutorial for help and let the student know that he or she should try his or her best but that the TA cannot help answer an item. The TA may remind the student to reread the instructions for that item.

SAY: I can't help with the test. Try to do your best.

Allowing students to practice on the Training Test and Practice Test before testing is strongly encouraged and allows them the opportunity to have exposure to all the item types.

**IMPORTANT:**

- If the TA is using the TA Interface and navigates to DeSSA TIDE or the TA Practice or Training Site, the session will stop, and all students in the session will be logged out. The session cannot be resumed. A new session will have to be created, and the students will have to log in to the new session to resume testing. When starting a new session, give the new Session ID to the students so they can log in and resume testing.
- If the TA Interface or TA training site browser is accidentally closed while students are still testing, the session will remain open until it times out after 20 minutes. The TA can open the browser and navigate back to the TA Interface. The TA will be prompted to enter the active Session ID.
- As a security measure, TAs are automatically logged out of the TA Interface after 20 minutes of TA user inactivity and student inactivity in the test session, which will result in closing the test session. If this occurs, the TA will have to create a new session, and the students will have to log in to the new session to resume testing. When starting a new session, the TA should give the students the new Session ID so that they can log in and resume testing.

**9. TA ends the test session and logs out of the Test Administrator Site.**

When there are approximately five minutes left in the test session, the TA should give students a brief warning.

SAY: We are nearing the end of this testing period. Please review any completed or marked items now. If you have not finished, you will have the chance to finish the test at another time. Do not submit your test unless you are done answering questions.

After answering the last item in each segment, each student is presented with a screen prompting him or her to review answers (marked and unmarked) for all items available to the student or to end the test. Tests can no longer be paused after the last item has been presented.

After answering the last question, students must end their test. If students would like to review their answers before ending their test, they do so by clicking [Review My Answers] and then [Submit Test] once they are done reviewing. Once a student clicks [Submit Test], the student will not be able to review answers.

SAY: This test session is now over. If you have not finished, click [Pause], and you will be able to finish at another time. If you have finished, click [Submit Test]. I will now collect any scratch paper or other materials.

TAs should collect any scratch paper and then click [Stop Session] to end the test session and pause any student tests in the session that are still in progress. When finished, TAs can log out of the TA Interface by clicking the [Logout] button at the top right.

## 9.2 Testing Over Multiple Sessions or Days

For some tests, particularly the PTs, students may be best served by sequential, uninterrupted time that may exceed the time in a student's schedule. Smarter Balanced recommends that the ELA PT be administered in two sessions corresponding with Part 1 and Part 2 of the PT. Students can be provided with breaks within each part; however, once a student moves on to Part 2, he or she will not be able to review or revise items in Part 1. For this reason, it is recommended that students complete Part 1 in one test session, and Part 2 would ideally be delivered the next school day. For the mathematics PT, Smarter Balanced recommends that it be administered in one session of 40 to 120 minutes.

If the TA intends to administer the test over the course of multiple days for a student or group of students, TAs may ask that all students pause after they reach a designated point. For most tests, there is nothing built into the system to prevent students from progressing from one section of the test to another. In those cases, the TA should give the students clear directions on when to pause. For example, TAs may designate a certain amount of time for testing. Likewise, the end of Part 1 of the ELA PT might be a logical stopping point. This guidance may be written on a dry-erase board, chalkboard, or another place that students can easily see. Students will receive a notification when they reach the end of the section.

When testing is resumed on a subsequent day, the TA will need to start a new test session and provide a new session ID. When instructing the students to log in, TAs should read the non-italicized sections of the general script to the students from the beginning in [Section 8.0 Prior to Test Administration](#).

## 9.3 Sensitive Responses

### 9.3.1 *Taking Appropriate Action With Student Responses or Student Actions That Cause Concern*

Throughout the test administration process, student safety is always the primary consideration.

During testing, TAs may encounter student actions that disrupt the assessment administration and may endanger the student or others. In addition, it is possible that TAs will encounter student responses to test questions or notes on scratch paper that necessitate some action to ensure student safety.

Smarter Balanced security protocols make it clear that TAs are not permitted to review student responses in the testing interface or student notes on scratch paper. However, during or after the Smarter assessment, a TA might unexpectedly encounter a student response that raises sufficient concern to warrant adult action. Topics that may require the TA to take action include, but are not limited to, student references to:

1. Suicide
2. Criminal activity
3. Alcohol or drug use
4. Extreme depression
5. Extreme violence
6. Sexual assault or physical abuse
7. Self-harm or intent to harm others
8. Neglect

### ***Collecting Information***

Prior to test administration, each TA should have a thorough understanding of school, district, and/or state policy regarding documentation of student actions or concerning responses during a secure test event. The TA should document as much information as possible in accordance with school, district, and/or state policy. Please refer to the DeSSA Test Security Manual.

### ***Escalating Information***

Should the TA encounter a sensitive situation while supervising the test session, the TA should immediately escalate this concern in accordance with school, district, and/or state policies and procedures.

## 10.0 Following Test Administration

---

### 10.1 Destroying Test Materials

**Important:** Federal law—the Family Educational Rights and Privacy Act—prohibits the release of any student’s personally identifiable information. Any printed materials must be securely stored and then shredded.

As a reminder, unless using scratch paper during the performance task (PT), those test materials identified in the DeSSA Test Security Manual must be securely shredded immediately following each test session and may not be retained from one test session to the next. Scratch paper used during the PT should be handled according to the guidance provided in the DeSSA Test Security Manual.

### 10.2 Hand-Scoring of Specific Test Items

#### 10.2.1 Hand-Scoring Overview

There are two areas within the Smarter Interim Comprehensive Assessment and Interim Assessment Blocks that require hand scoring. All non-machine scored responses must be hand scored at the local level (district/charter/school).

#### 10.2.2 Hand-Scoring Training

There will be face-to-face hand-scoring training provided to assist with the hand-scoring process. Teachers will review student responses and use rubrics and baseline sets to help determine scores. Participants will then provide support for the hand-scoring process in their districts and schools.

#### 10.2.3 Scoring System Training

The scoring process will be completed utilizing a system called the Teacher Hand-Scoring System (THSS), available on the [DeSSA Portal](#).

THSS training, provided by DDOE, will be available online. This training will demonstrate how to access student responses, rubrics, prompts, exemplars, and other scoring-related materials needed to complete the process and enter the scores.

## **Appendix A: List of Abbreviations and Acronyms**

---

---

## **Appendix A: List of Abbreviations and Acronyms**

---

### **A**

|     |                                  |
|-----|----------------------------------|
| AIR | American Institutes for Research |
| ASL | American Sign Language           |

### **C**

|      |   |
|------|---|
| CAT  | Computer Adaptive Test                    |
| CCSS | Common Core State Standards               |
| CDAP | Consortium Discipline Alternative Program |

### **D**

|        |   |
|--------|---|
| DA     | District Administrator  |
| DAPI   | Delaware Adolescent Program, Inc.                             |
| DDOE   | Delaware Department of Education                              |
| DELSIS | Delaware Student Information System                           |
| DeSSA  | Delaware System of Student Assessments                        |
| DSCYF  | Department of Services for Children, Youth and their Families |
| DTC    | District Test Coordinator                                     |

### **E**

|     |                          |
|-----|--------------------------|
| ELA | English Language Arts    |
| ELL | English Language Learner |

### **I**

|     |                                  |
|-----|----------------------------------|
| IAB | Interim Assessment Blocks        |
| ICA | Interim Comprehensive Assessment |
| IEP | Individual Education Plan        |
| IMS | Identify Management System       |

### **L**

|     |                        |
|-----|------------------------|
| LEA | Local Education Agency |
|-----|------------------------|

### **O**

|     |                         |

## **Appendix B: Frequently Used Terms**

---

## Appendix B: Frequently Used Terms

Table B-1 defines terms that are specific to the Smarter assessment.

**Table B-1: Frequently Used Terms**

| Term  | Definition   |
|---|--|
| Accommodation                                     | Changes in procedures or materials that increase equitable access during the Smarter assessments. Assessment accommodations generate valid assessment results for students who need them; they allow these students to show what they know and can do. Accommodations are available for students with documented Individual Education Plans (IEPs) or Section 504 Plans. Consortium-approved accommodations do not compromise the construct, grade-level standard, or intended outcome of the assessment. See the Accessibility Guidelines for DeSSA at <a href="http://de.portal.airast.org/">http://de.portal.airast.org/</a> for complete information.  |
| Accommodations Manager                            | The District/School Accommodations Manager is responsible for entering the accommodations and designated supports into the TIDE interface.   |
| DeSSA Test Information Distribution Engine (TIDE) | The DeSSA TIDE system is used by all DeSSA applications to track users, student accommodations, and assessments being administered in the State of Delaware. Student demographic data is transferred to DeSSA TIDE on a daily basis for processing and updating. Accommodations and designated supports are set in the TIDE interface by the Accommodations Manager. See the DeSSA TIDE User Guide on the <a href="#">DeSSA Portal</a> for complete information.   |
| Appeals   | Authorized users may submit and view requests for invalidating, resetting, reopening, or restoring students' tests in accordance with state policy into the Assessment Request System. These requests must result from a test security incident or incorrect test setting that impacted testing. All requests must be approved by a state education agency representative.   |
| Break   | There is no limit on the number of breaks or the length of a break that a student might be given according to his or her unique needs. However, for some portions of the test, breaks of more than 20 minutes will prevent the student from returning to items already attempted by the student.<br><br>For a performance task (PT), the student can break for any amount of time and still return to any previously answered item within the PT current segment only.   |
| Classroom Activity                                | A short, teacher-led activity designed to introduce students to the context and contextual vocabulary in the PT to ensure that students are not disadvantaged in demonstrating the skills the task intends to assess. A Test Administrator or other authorized staff can lead the classroom activity. An applicable classroom activity is required before the performance task portion of the test. The performance task should be administered within three days after the classroom activity. The classroom activity should not be supplemented with any other content because doing so may detract from the intended purpose of the classroom activity. |

| <b>Term</b>                     | <b>Definition</b>   |
|---------------------------------|---|
| Computer Adaptive Test (CAT)    | Based on student responses, the computer program selects the difficulty of items throughout the assessment. By adapting the set of items tailored individually to the student as the assessment is taking place, these assessments quickly identify which skills students have mastered and which need additional development.  |
| Designated Supports             | Accessibility features of the assessment available for use by any student for whom the need has been indicated by an educator (or team of educators with parent/guardian and student). See the DeSSA Guidelines for complete information on the <a href="#">DeSSA Portal</a> . Designated Supports information is entered through the TIDE interface. See the DeSSA TIDE User Guide on the <a href="#">DeSSA Portal</a> for complete information.   |
| District Test Coordinator (DTC) | District-level staff member who is responsible for the overall administration of the summative test in a district. DTCs should ensure that the School Test Coordinators (STCs) and Test Administrators (TAs) in their districts are appropriately trained and aware of policies and procedures. In the event there is no DTC, another designated individual will be assigned these responsibilities by the state.   |
| Full-Write                      | A component of the ELA performance task that requires the student to develop an informative/explanatory, narrative, or opinion/argumentative multi-paragraph piece of writing for which he or she engages in the full writing process.  |
| Invalidation                    | <p>A specific appeal in the Assessment Request System. Invalidating a test in the Appeals system results in the omission of test results and student responses from the testing and accountability systems. Invalidation is often the outcome for tests impacted by a test security incident.</p> <p>Permission for an invalidation is initiated through the Appeals process in DeSSA TIDE. See the DeSSA TIDE User Guide for more information on the Appeals process.</p>  |
| Pause                           | <p>Action taken by a student or TA to temporarily halt the test during any part of the test as needed. Pauses of more than 20 minutes in the CAT component of the test will prevent the student from returning to items already attempted.</p> <p>For a PT, the student can pause for any amount of time and still return to any previously answered item within the PT's current segment only. More information on test pausing is available in <a href="#">Section 6.4 General Rules of Online Testing</a>.</p>       |
| Performance Task (PT)           | A PT is an item type designed to provide students with an opportunity to demonstrate their ability to apply their knowledge and higher-order thinking skills to explore and analyze a complex, real-world scenario. It is a required portion of the test. Prior to the PT, teachers or instructional staff conduct a classroom activity for all students in the class to ensure that a lack of understanding of the context of the task does not interfere with a student's ability to address the content of the task. |

| <b>Term</b>                   | <b>Definition</b>  |
|-------------------------------|--|
| Reopen                        | <p>A specific appeal in the Appeals system. It applies to a test that has already been submitted or has expired and allows the student to access the previously closed test. For example, a test may be reopened if a student started a test and became ill and was unable to resume testing until after the testing opportunity expired.</p> <p>Permission for a reopen is initiated through SysAID in DeSSA to reopen assessment.</p>  |
| Reset                         | <p>A specific appeal in the Appeals system. Resetting a student's test removes that test from the system and enables the student to start a new test. Any work previously done on the test would be lost. Valid reasons for a reset would be if a student's test event was administered inconsistently with the student's IEP (this would include both embedded and non-embedded accommodations) or if the student started a test and did not have a needed language support (such as a language glossary).</p> <p>Permission for a reset is initiated through SysAID to reset the assessment.</p> |
| Restore                       | <p>A specific appeal in the Appeals system. Restore a test from the "Reset" status to its prior status. This action can only be performed on tests that have been reset. A test opportunity can be restored if it was reset in error. For example, if a test reset was requested for a mathematics test instead of an ELA test, then that mathematics test can be restored to its previous status.</p> <p>Permission for a restore is initiated through SysAID to restore the assessment.</p>  |
| School Test Coordinator (STC) | <p>School staff member responsible for monitoring the test schedule, process, and TAs. STCs are also responsible for ensuring that TAs have been appropriately trained and that testing is conducted in accordance with the test security and other policies and procedures established by the Smarter Balanced Assessment Consortium.</p>   |
| Secure Browser                | <p>A web browser that is downloaded and installed on a computer prior to a student beginning the test. The browser is specifically designed for use with the Smarter assessment to provide secure access to the test and prevent students from accessing specific hardware and software functions (e.g., other browsers, screenshot programs) that are not allowed during the assessment.</p>  |
| Segment                       | <p>A part of a test within the test delivery system. Depending on the test, segments typically separate items from others if the eligible tools are different (i.e., the mathematics test may have two segments—one segment that allows calculator use and another segment that does not). When a student completes a segment of the test, he or she will receive a message that indicates that once that segment is submitted it is no longer possible to return to that segment.</p>   |

| Term                                | Definition  |
|-------------------------------------|---|
| Session                             | <p>A timeframe in which students actively test in a single sitting. The length of a test session is determined by building or district administrators who are knowledgeable about the periods in the building and the timing needs associated with the assessment. Smarter Balanced recommends that session durations range between 40 and 120 minutes. However, Smarter assessments are not timed and an individual student may need more or less time overall. Further, individual students will have unique needs regarding the length of a test session.</p> <p>Though a session is most often set up by an administrator in the TA Interface, the performance task includes a classroom activity, which does not require students to be logged in to the test delivery system but may be administered as an independent session. Smarter Balanced recommends the CAT portion of the ELA and mathematics tests be administered in at least two sessions.</p> <p><b>Note:</b> A test session does not need to end when a segment ends.</p> |
| Statewide Student Identifier (SSID) | A statewide unique student identifier, as assigned for use in DeSSA TIDE, assigned to each student by his or her state education agency for the purpose of the Smarter assessment. In some cases, this <i>may</i> be the same identifier used on other state assessments.   |
| Stimulus/Stimuli                    | Material or materials used in the test context that form the basis for assessing the knowledge and skills of students. Many items/tasks for assessment include a stimulus along with a set of questions to which the student responds. Stimulus materials are used in ELA and mathematics assessments to provide context for assessing the knowledge and skills of students and are diverse. They can be traditional reading passages/texts but viewed on a computer screen, audio presentations with images for students to listen to, simulated web pages for students to use for research, or scenarios to react to.   |
| Test Administrator (TA)             | District or school personnel responsible for administering the Smarter assessment in a secure manner in compliance with the policies and procedures outlined in this document.  |
| Testing Breach                      | <p>A security event that poses a threat to the validity of the test. Examples may include such situations as a release of secure materials or a security/system risk. These circumstances have external implications for the Consortium and may result in a Consortium decision to remove the test item(s) from the available secure bank. A breach incident must be reported immediately to the state level.</p> <p>For specific details on how to proceed when an incident has occurred, please refer to the DeSSA Test Security Manual.</p>  |
| Testing Impropriety                 | <p>An unusual circumstance that has a low impact on the individual or group of students who are testing and has a low risk of potentially affecting student performance on the test, test security, or test validity. These circumstances can be corrected and contained at the local level.</p> <p>For specific details on how to proceed when an incident has occurred, please refer to the DeSSA Test Security Manual.</p>   |

| Term                 | Definition  |
|----------------------|---|
| Testing Irregularity | <p>An unusual circumstance that impacts an individual or group of students who is testing and may potentially affect student performance on the test, test security, or test validity. These circumstances can be corrected and contained at the local level but submitted in the online system for resolution of the Appeal for testing impact.</p> <p>For specific details on how to proceed when an incident has occurred, please refer to the DeSSA Test Security Manual.</p> |
| Universal Tools      | <p>Available to all students based on student preference and selection.</p> <p>See the Accessibility Guidelines for DeSSA at <a href="http://de.portal.airast.org/">http://de.portal.airast.org/</a> for complete information.</p>  |

---

## **Appendix C: What to Do When Guide and Fixed Form Pause Rule Scenarios**

---

## Appendix C: What to Do When Guide and Fixed Form Pause Rule Scenarios

### Before Testing

| Description   | What to Do  |
|---|---|
| 1. A student is chronically truant.   | Do not submit incident report. No exemptions will be granted.   |
| 2. A student is present at school but refuses to take the test any time during the testing window.  | Submit an incident report in SysAID for the individual student for the affected tests.  |
| 3. A student has a health concern, and a medical professional caring for the student has provided a letter stating that the student should not test due to the medical condition. The doctor cannot be required to provide any medical details due to HIPAA law.                      | N/A. Interims are not required by DDOE.   |
| 4. A student is not showing for the school in which he/she is currently enrolled.   | Review DELSIS 2.0 and eSchool. If the student is correct in these applications, submit a ticket in SysAID to your STC and submission to DDOE for review.  |
| 5. A student does not show correct accommodations or supports in DeSSA TIDE. Test has not yet been started.   | Contact the District or School Accommodations Manager to update the accommodations and supports in TIDE. Make sure accommodations are correct before student begins a test.   |
| 6. There is a death in the family before or during the testing window.  | Determine whether the child can be tested at the end of the testing window—if that will not be feasible, submit an exemption request.   |
| 7. A student is in a DSCYF juvenile detention facility.   | Do not submit an exemption request. Make sure student has a home school record associated with your district and the student has been enrolled at detention facility.   |
| 8. A student is in a court-ordered private placement in state.  | N/A. Interims are not required by DOE.  |
| 9. A student is in a court-ordered private placement out of state.  | Submit a request for an exemption in SysAID. Keep letter from facility on file in district office. If the student does return to your school/district, he or she must be given the opportunity to test.   |
| 10. A student is in DAPI or Consortium Discipline Alternative Program (CDAP).   | Student will be tested at current CDAP facility. Make sure student has home school record and the CDAP facility has entered the student record for its facility.  |
| 11. A student is in an adult prison.  | N/A. Interims are not required by DDOE.   |
| 12. A student who wears glasses or takes medication on a daily basis is without them on testing day.  | Postpone testing for student and have student take test at a later time in the testing window.  |
| 13. A student qualifies for English as a Second Language (ESL) services, but the student's parent/guardian/caregiver has withdrawn him or her from ESL services. Can this student have designated supports? Can this student qualify for an exemption in the ELA/literacy assessment? | If a student meets the criteria to be identified as an ELL and receives ESL services, a student may receive ELL designated supports even if parent/guardian/caregiver has withdrawn the student from ESL services. Please see the Guidelines for Inclusions for ELL Students to determine whether a student can be excluded from the ELA/literacy assessment. |

### During Testing

| Description  | What to Do   |
|--|--|
| 1. A student becomes sick during testing.  | Pause student test and allow student to return during make-up session(s) to finish test. Request a reopen if student test expires due to illness.  |
| 2. A student is removed from test session due to student misbehavior.  | Pause student test and allow student to return during make-up session(s) to finish test.   |
| 3. A student is given a test accommodation or support that is not in his or her IEP/504 plan/intervention plan.  | Submit an incident report in SysAID indicating name(s) and ID numbers of students involved. Indicate which accommodations and supports were incorrectly provided. The student(s) will be reset only if they meet the new reset criteria.   |
| 4. A student starts a test without all of his/her accommodations or supports available on the test.  | Pause the student's test. Contact the District or School Accommodations Manager to update the accommodations or supports in TIDE. (If the change is to Language [Braille, Spanish], Permissive Mode, closed captioning, or ASL, you must also request a reset from DOE via SysAID.) Once changes are in place, re-launch the student's test. |
| 5. A testing behavior violation occurs.  | Report incident to the DTC. DTC will report the incident to the Office of Assessment according to the procedures in the Security Manual. The School Administrator or District Administrator should submit an online incident report in SysAID.   |
| 6. A student is cheating.  | Submit an incident report in SysAID. Enforce district policies for student misconduct.   |
| 7. It is identified that a student who has test accommodations has not been provided one or more of these accommodations or supports during a test session. Student's test status is "reported." | Submit an incident report in SysAID. Contact the District or School Accommodations manager to update the accommodations and supports in TIDE. Make sure the student is provided with appropriate accommodations and supports for any remaining test sessions.  |
| 8. A student moves out of the school before all test sessions are completed.   | Student can complete testing in new district if moving within the state—no action is necessary.  |
| 9. The building experiences a fire drill, emergency situation, or extended power outage.   | The TA should ensure student safety and pause the test if time permits. Testing should be continued when order is restored if time permits. If not, a new test session must be scheduled to give the students sufficient time to complete the test.  |
| 10. The building experiences a fire drill, emergency situation, or extended power outage or computer issue, and students are unable to return to review tests before the pause time expires.     | If the students were unable to access their tests before the pause rule expired, submit an incident report in SysAID identifying all students affected and request a re-open. See examples below.  |

**Scenarios:**

1. If the Fixed Form portion of the test is paused for less than 20 minutes, the student can return to previous test pages and change the response to any question he or she has already answered within a segment.
2. If the Fixed Form portion of the test is paused for more than 20 minutes, the test will return the student to the last page with unanswered items when the student resumes testing. If a page has both answered and unanswered items, the student may change any answers on that page. The student may not return to previous pages and cannot change answers to items on previous pages.
  - a. Example: A single test page has questions 4–10. A student answers questions 4–7 and pauses the test for more than 20 minutes. When the student resumes testing, he or she can change answers to questions 4–10 but cannot return to questions 1–3 on an earlier page.
  - b. Example: A page contains questions 9–11, and a student answers all of those items before pausing the test for more than 20 minutes. When the student resumes testing, he or she will begin on question 12 and cannot return to questions 1–11.

---

## **Appendix D:**

# **What to Do After Testing for Students**

---

## Appendix D: What to Do After Testing for Students

### After Testing

When administering an untimed test, students will finish at different times. What students are allowed to do while other students finish is a dilemma. Here is DDOE's list of recommended, suggested, and prohibited activities. This list is not complete. If you have doubts about the appropriateness of an activity, contact Carolyn Lazar at [carolyn.lazar@doe.k12.de.us](mailto:carolyn.lazar@doe.k12.de.us).

| Activity  | Status          | Rationale  |
|---|-----------------|--|
| Leave the testing room and report back to regularly scheduled activity  | Recommended     | Student instructional time is not wasted   |
| Leave the testing room and report to pre-designated, monitored holding area, with or without a scheduled activity | Suggested       | Students are engaged   |
| Sit quietly in their seats  | Allowed         | This will be conducive to a quiet testing environment for others but will be difficult for many students |
| Read a preapproved book or preassigned material not related to the tested subject                                 | Suggested       | Quiet, not a major security risk   |
| Write in a journal, diary, or on any paper  | Prohibited      | Security risk that students may transmit item content  |
| Listen to music on their iPod, etc.   | Prohibited      | Electronic devices are not allowed in the testing room   |
| Use their cell phone  | Prohibited      | Electronic devices are not allowed in the testing room   |
| Play video games on the computer  | Prohibited      | Too distracting to other students  |
| Use the computer to research answers to questions they missed   | Prohibited      | Security risk with other students still testing  |
| Use the computer to communicate   | Prohibited      | Security risk that students may transmit item content  |
| Use the computer for any other reason   | Not recommended | Too difficult to monitor   |
| Talk or signal to other students  | Prohibited      | Too distracting to other students and security risk  |
| Move about the testing room   | Prohibited      | Too distracting to other students  |

---

## **Appendix E: Accessibility Guidelines for Classroom Activities**

---

## Appendix E: Accessibility Guidelines for Classroom Activities

---

Students with disabilities (SWDs) are allowed to have accommodations, and English language learners (ELLs) should have access to language supports that they regularly use during classroom instruction. The information noted in [Table E-1](#), which begins on the next page, provides teachers with options that may be implemented during the activity as needed for students to have appropriate access to the information included in the classroom activity.

Overall strategies for the classroom activity are as follows:

- Teachers may employ the same strategies for the classroom activity that they use during instruction to attend to the diversity of their individual student needs.
- Teachers can employ formative practices and professional judgment to determine whether individual students require additional support or scaffolding to meet the objectives of the classroom activity.
- Teachers can read and re-read aloud any text included in the classroom activity.
- Teachers may employ assistive technologies that are typically available during instruction.
- The additional supports and strategies described in the table below may be made available to any student based on the student's individual needs and are not limited to particular impairments or to students who have IEPs or 504 plans.
- Teachers may adjust any classroom activity to allow for different instructional settings (e.g., individual student make-up activity, remote learning environment).
- Teachers may employ more than one suggested strategy listed in the table below to meet student needs.
- These strategies are not mutually exclusive.

**Table E-1: Classroom Activity Guidance for Needs-Specific Accessibility Options**

| <b>Student Need</b>             | <b>Guidance for Accessibility<br/>(Student IEP and 504 Plans Supersede These Guidelines)</b>  |
|---------------------------------|---|
| Visual Impairments              | <ul style="list-style-type: none"> <li>• Reading Materials: All materials that are required to be read by a student may be read aloud to the student.</li> <li>• Pictures, Figures, Drawings, and Photographs: Descriptions may be read to students. In addition, teachers can provide students with further explanation of the descriptions. These explanations may clarify the description without adding additional content.</li> <li>• Graphs: Further descriptions or repetition of descriptions may be necessary for a student. These explanations may clarify the description without adding additional content.</li> <li>• Venn Diagrams: Venn diagrams may be described to the student. In addition, a teacher may use a different chart, diagram format, or graphic organizer.</li> </ul> |
| Reading Impairments             | <ul style="list-style-type: none"> <li>• Reading Materials: All materials that are required to be read by students may be read aloud to the student.</li> <li>• Writing Activities: All activities that require the student to write may allow for an oral response or the use of technology usually used by the student in a classroom environment.</li> </ul>   |
| Physical Impairments            | <ul style="list-style-type: none"> <li>• Kinesthetic Activities: If a student cannot participate in a kinesthetic activity, the student may be asked to describe the activity orally.</li> <li>• Activities Requiring Movement: Tasks such as moving around the room or coming up to the board can be modified to allow the teacher or other students to interact with the student or allow the student to respond orally.</li> <li>• Writing Activities: If helpful to a student, all activities that require the student to write may allow for an oral response or the use of technology usually used by the student in a classroom environment.</li> </ul>  |
| Hearing Impairments             | <ul style="list-style-type: none"> <li>• Activities Requiring Listening: Listening activities may be presented in sign language. For activities that require students to describe sounds, such as those from a thunderstorm, a sound may be described by the student as how it feels and looks.</li> <li>• Activities Requiring Oral Responses: Oral responses may be provided via sign language or in writing.</li> </ul>  |
| Expressive Language Impairments | <ul style="list-style-type: none"> <li>• Activities Requiring Oral Responses: Oral responses may be provided in writing, using a communication device or any other means that the student uses to communicate.</li> </ul>   |
| English Language Learners       | <ul style="list-style-type: none"> <li>• Reading Materials: All materials that are required to be read by students may be read aloud to the student.</li> <li>• Writing Activities: All activities that require the student to write may allow for an oral response.</li> <li>• Visual Supports: If helpful to a student, vocabulary and key contextual topics may be supplemented with visual supports.</li> <li>• Flexible Grouping: Teachers may administer the classroom activity in flexible groups based on English language proficiency.</li> <li>• Activities Requiring Oral Responses: Oral responses may be provided in writing.</li> <li>• Students may use an English, a non-English, and a bilingual dictionary and thesaurus as needed.</li> </ul>                                    |

| Student Need     | Guidance for Accessibility<br>(Student IEP and 504 Plans Supersede These Guidelines)   |
|------------------|--|
| Separate Setting | <ul style="list-style-type: none"> <li>▪ Group activities may be tailored to occur between a single student and his or her educator where the educator and student share discussion and work.</li> <li>▪ Activities between student(s) and an educator may be conducted online or via a telephone connection.</li> <li>▪ All student-facing information included in a classroom activity should be presented to students working in a separate setting.</li> </ul> |

### **Additional Administration Recommendations**

- For the performance tasks, students may be best served by sequential, uninterrupted time that may exceed the time in a student's schedule.
- Minimize the amount of time between beginning and completing each test within a content area.

#### **Important reminders:**

1. The number of items will vary on the CAT portion of each student's test.
2. The tests are not timed, so all time estimates are approximate.
3. Students should be allowed extra time if they need it, but test administrators need to use their best professional judgment when allowing students extra time. Students should be actively engaged in responding productively to test questions.
4. The test can be spread out over multiple days as needed.
5. The classroom activity must be completed prior to administration of the PT. Inadvertently administering the PT before the classroom activity is considered a testing irregularity.

---

## **Appendix F: Resources and Practices Comparison Crosswalk**

---

## **Appendix F: Resources and Practices Comparison Crosswalk**

---

Smarter Balanced is committed to providing mathematics and English language arts/literacy assessments that are accessible to all students. The Smarter assessments are accessible via a suite of resources (universal tools, designated supports, and accommodations) available locally or directly in the test platform. Although many resources, particularly those embedded in the system, may appear new, many of the resources are similar to those used commonly during classroom instruction.

To help states identify similarities between the assessment resources and classroom practices, Smarter Balanced has developed a Resources and Practices Comparison Crosswalk, refer to [Table F-1](#). The Crosswalk lists the resources that are currently included in the Guidelines document and assists educators and decision makers by providing a description of both the resource and its classroom equivalent.

**Table F-1: Resources and Practices Comparison Crosswalk**

| No. | Guidelines Resource                              | Description (See Guidelines for Full Description)   | Pedagogical Practices  | Description   |
|-----|--|---|--|---|
| 1.  | Breaks   | The number of items per session can be flexibly defined based on the student's need.                          | Breaks   | Students pace themselves while completing work.<br>Students may move about the classroom or take a short break outside to refocus.  |
| 2.  | Color Contrast                                   | Enables students to adjust screen or printed background or font color, based on student needs or preferences. | Color coding<br>(Varied printing color and paper color)  | Students have instructional materials that have different font or background paper color(s).<br>Students can use one color for a main idea and another color for details when outlining or taking notes.  |
| 3.  | Color Overlays                                   | Color transparencies are placed over a paper-based assessment.  | Color overlays   | Color transparencies are placed over a paper-based assessment.  |
| 4.  | Digital Notepad<br>Global Notes<br>Scratch Paper | These tools are used for making notes, computations, or responses about an item or performance task.          | AVID Style Notes,<br>brainstorming ideas, writing down connections, scratch paper, whiteboards, or notepaper | Strategies that allow students to create notes or work on computations. Students may create two-column notes to record main ideas and to make connections with previous knowledge or ask questions.<br>Students can organize ideas by listing all ideas for each topic and then prioritize. |
| 5.  | Highlighter                                      | A digital tool for marking desired text, item questions, item answers, or parts of these with a color.        | Highlighter  | A digital or physical tool for marking desired text with a color.<br>Students use highlighters to distinguish useful/meaningful text when completing an assignment.<br>Students can denote main ideas, supporting details, and conclusion.  |

| <b>No.</b> | <b>Guidelines Resource</b> | <b>Description (See Guidelines for Full Description)</b>  | <b>Pedagogical Practices</b>   | <b>Description</b>   |
|------------|----------------------------|---|--|--|
| 6.         | Keyboard Navigation        | Navigation throughout text can be accomplished by using a keyboard.   | Students apply keyboarding skills using knowledge/skill of software                              | Students use classroom software programs such as Accelerated Reader, Interactive Math, Rosetta Stone, or EDMODO to complete classroom assignments and make use of keyboarding skills in doing so.  |
| 7.         | Magnification              | The size of specific areas of the screen (e.g., text, formulas, tables, graphics, and navigation buttons) may be adjusted by the student with an assistive technology device.                           | Large-print texts or use of magnifying devices during instruction                                | Visually impaired students are provided large-print versions of state textbooks to enable access to curriculum.<br><br>Students use computer screen enlargement to work in teams.  |
| 8.         | Mark for Review            | Allows students to flag items for future review during the assessment.  | Circle, star, or check (✓) the item numbers of problems or questions that have not been answered | Circling, starring, or placing a checkmark by an item about which a student is unsure enables the student to proceed to the next item. Students may also use paper sticky flags to notate areas for review or rereading.<br><br>Students can also circle steps within a math problem to revisit or ask questions.  |
| 9.         | Masking                    | Masking involves blocking off content that is not of immediate need or that may be distracting to the student. Students are able to focus their attention on a specific part of a test item by masking. | Use of white space on documents<br><br>Masking device  | During instruction, students use a masking device that covers up sections of text before/after they read it to maintain visual attention.<br><br>Teachers create a clean document for students to work from that is not too “busy” or crowded with distracting information.<br><br>Students use paper to block test questions, to decrease distractions.<br><br>Teachers block off text on classroom boards or overhead projectors to focus students on topics during whole-group discussions. |

| No. | Guidelines Resource  | Description (See Guidelines for Full Description)   | Pedagogical Practices                            | Description   |
|-----|----------------------|---|--|---|
| 10. | Spell Check          | Writing tool for checking the spelling of words in student-generated responses.   | Proofreading<br><br>Automated spell-check device | Students proofread other students' work using a dictionary.<br>Teachers proofread student work and have students make specific corrections.<br>Students use rubrics to evaluate their own work, including checking for spelling, grammar, or content.<br>Students use an automated spell-check device during instruction. |
| 11. | Strikethrough        | Allows users to cross out answer options.   | Process of elimination                           | Students cross out the answers to multiple-choice items that are obviously wrong.<br>Students cross out incorrect words in sentences.   |
| 12. | Zoom                 | A tool for making text or other graphics in a window or frame appear larger on the screen.  | Large-print texts                                | Students receive large-print copies of state textbooks, or other text, to enable access to curriculum.<br>Students have access to enlarged math problems to make sure all steps are completed.  |
| 13. | Bilingual Dictionary | A bilingual/dual-language word-to-word dictionary is a language support.  | Bilingual/dual-language paper dictionaries       | Students use electronic or paper bilingual/dual-language dictionaries to look up word meanings during instruction.  |
| 14. | English Dictionary   | An embedded English dictionary will be available for the full-write portion of an ELA/literacy performance task. A non-embedded English dictionary may be available for the same portion of the test. | Electronic or paper English dictionary           | Students use an electronic or paper English dictionary to look up word meanings.  |

| <b>No.</b> | <b>Guidelines Resource</b> | <b>Description (See Guidelines for Full Description)</b>  | <b>Pedagogical Practices</b>   | <b>Description</b>  |
|------------|----------------------------|---|--|---|
| 15.        | English Glossary           | Grade- and context-appropriate definitions of specific construct-irrelevant terms are shown in English. | Identify useful text features for understanding new vocabulary<br><br>English glossaries (instructional materials) | Students utilize embedded definitions in textbooks; definitions in footnotes, margins, photos, charts, and illustrations; and glossaries in the rear of textbooks to clarify word meanings.<br><br>Students use glossaries of terms in their textbooks or instructional materials.  |
| 16.        | Stacked Translations       | Stacked translations provide the full translation of each test item above the original item in English. | Bilingual glossaries<br><br>Stacked or bilingual translations  | Students utilize bilingual glossaries in the rear of textbooks to find unknown word meanings.<br><br>Students use bilingual word list(s) appropriate to the subject area and language acquisition.<br><br>Students use bilingual translations during their instruction (homework, worksheets, etc.).  |
| 17.        | Thesaurus                  | A thesaurus contains synonyms of terms while a student interacts with text included in the assessment.  | Electronic or paper thesaurus  | Students utilize a thesaurus to enrich their writing vocabulary and to hone their knowledge of nuances in the English language.   |
| 18.        | Translation Glossaries     | Translation glossaries are provided for selected construct-irrelevant terms for math.                   | Translation glossaries (instructional materials)   | Students use a translation glossary at the rear of their text to facilitate transferring knowledge/skills from their primary language to English.<br><br>Students use bilingual glossaries to find the meanings of content-specific words (e.g., math, science, history).<br><br>Glossaries may be located in the appendices of their textbooks or instructional materials. |

| <b>No.</b> | <b>Guidelines Resource</b>   | <b>Description (See Guidelines for Full Description)</b>   | <b>Pedagogical Practices</b>   | <b>Description</b>   |
|------------|------------------------------|--|--|--|
| 19.        | Translated Test Directions   | Students can see test directions in another language.  | Translated test directions<br><br>Translated instructions on assignments | Written translated test directions are provided on the page, on the board, or on a classroom visual media device.<br><br>Students are provided both English and native-language directions to build skill and understanding in classroom directions.<br><br>Students have their assignment directions translated into their native language. |
| 20.        | Abacus                       | This tool may be used in place of scratch paper for students who typically use an abacus.  | Counting devices (blocks, tiles, chips, etc.) or scratch paper           | Students use items to count during their instruction.  |
| 21.        | Alternate Response Options   | Alternate response options include but are not limited to adapted keyboards, large keyboards, StickyKeys, MouseKeys, FilterKeys, adapted mouse, touch screen, head wand, and switches.   | Dictated responses   | Students dictate responses to a teacher or an instructional assistant who records them.<br><br>Students use communication boards, picture representations, or other individual expressive communication devices.   |
| 22.        | American Sign Language (ASL) | Test content is translated into ASL video. An ASL human signer and the signed test content are viewed on the same screen.  | American Sign Language   | An ASL interpreter or ASL-certified instructor signs during instruction.   |
| 23.        | Braille                      | A raised-dot code that individuals read with the fingertips. Graphic material (e.g., maps, charts, graphs, diagrams, and illustrations) is presented in a raised format (paper or thermoform). Contracted and non-contracted braille are available; Nemeth code is available for math. | Braille  | Instructional materials and assignments are completed in braille.  |

| <b>No.</b> | <b>Guidelines Resource</b> | <b>Description (See Guidelines for Full Description)</b>  | <b>Pedagogical Practices</b>                     | <b>Description</b>   |
|------------|----------------------------|---|--|--|
| 24.        | Calculator                 | A calculator can be accessed for calculator-allowed items. The student may use the calculator offered with assistive technology devices (such as a talking calculator or a braille calculator). | Handheld calculators or computer calculators     | Calculators can be used to do basic calculation in multistep math processes that are not being assessed.<br><br>A student may use the calculator offered with assistive technology devices (such as a talking calculator or a braille calculator).   |
| 25.        | Closed Captioning          | Printed text that appears on the computer screen as audio materials are presented.  | Instructional videos; movies                     | In-class videos and films are used that contain closed captioning.<br><br>Closed captioning is used in foreign-language classes.   |
| 26.        | Math Tools                 | Examples include embedded ruler or embedded protractor.   | Rulers, protractors, number lines, manipulatives | Students can use rulers, protractors, and manipulative materials to complete graphs, rays, and circumferences.   |
| 27.        | Multiplication Table       | A paper-based single-digit (1–9) multiplication table.  | Paper-based multiplication table                 | Students use a multiplication table (often it is a sticker on their desk) during regular instruction and assessments.  |
| 28.        | Print-on-Demand            | Paper copies of passages/stimuli and/or items are printed for students.   | Printed materials                                | Teacher-provided print materials are used to facilitate learning activities.<br><br>Photocopies of passages are used instead of textbooks, so that students can write and/or highlight.  |
| 29.        | Separate Setting           | The test location is altered so that the student is tested in a setting different from that made available for most students.   | Special seating arrangements                     | Students who are easily distractible are provided seating within the classroom, to improve focus.<br><br>Students can come in during off periods to do homework or class assignments when the classroom has only a few students.<br><br>During instruction and or testing, students are allowed to find an alternative environment to be in. |

| No. | Guidelines Resource           | Description (See Guidelines for Full Description)   | Pedagogical Practices                               | Description  |
|-----|-------------------------------|---|---|--|
| 30. | Speech-to-Text/<br>Scribe     | Allows students to use their voices as input devices to the computer (or a human), to dictate responses or give commands (e.g., opening application programs, pulling down menus, and saving work). | Tape recorders, scribes, specific computer programs | Students can use a tape recorder or scribe as an alternative to writing when a processing or physical challenge is present. A trained adult then transcribes the student's response word-for-word on the student's test or assignment. |
| 31. | Text-to-Speech/<br>Read-Aloud | Text is read aloud to the student via embedded text-to-speech technology or a human.  | Teacher or assistant reads aloud instructions       | Listening skills are taught using read-aloud material, and then students are checked for understanding.<br><br>Students listen to a prerecorded audio interpretation (book-on-tape) of text or a book.                                 |
| 32. | Writing Tools                 | Examples include bold, italic, bullets, undo/redo.  | Writing tools                                       | Students use publishing software (Microsoft Word) in order to type up a story or article during instruction. Students can use italics and bullets to cite a reference or to emphasize important ideas.                                 |

---

## **Appendix G: Secure Browser for Testing**

---

## Appendix G: Secure Browser for Testing

---

TAs should be aware of the following guidelines and employ the necessary precautions while administering online assessments:

### ***Close External User Applications***

Prior to administering the online assessments, TAs should check all computers that will be used and close all applications except those identified as necessary by the school technology coordinator. After closing these applications, the TA should open the secure browser on each computer.

The secure browser and Student Interface automatically detect certain applications that are prohibited from running on a computer while the secure browser is open. The secure browser will not allow a student to log in if the computer detects that a forbidden application is running. A message will also be displayed that lists the forbidden application(s) that needs to be closed.

**Note:** If a forbidden application is launched in the background while the student is already in a test, the student will be logged out and a message displayed. The student will have to close the forbidden application, reopen the secure browser, and log in to continue working on the assessment. This would be considered a test security incident.

### ***Testing on Computers With Dual Monitors***

Systems that use a dual monitor setup typically display an application on one monitor screen while another application is accessible on the other screen. Students should not take online assessments on computers that are connected to more than one monitor except in extremely rare circumstances, such as when a TA is administering a test via read-aloud and wants to have a duplicate screen to view exactly what the student is viewing for ease of reading aloud. In these rare cases where a dual monitor is allowed, Smarter Balanced requires that the monitors be set up to “mirror” each other. School technology coordinators can assist TAs in setting up the two monitors to ensure they mirror each other rather than operate as independent monitors.

In these cases, all security procedures must be followed and the test administered in a secure environment to prevent others from hearing the questions or viewing the student or TA screens.

### ***Secure browser error messages***

Possible error messages displayed by the open-source secure browser are shown in [Table G-1](#).

**Table G-1: Secure Browser Error Messages**

| Message  | Description   |
|--|---|
| Secure Browser Not Detected                                    | The system automatically detects whether a computer is using the secure browser to access the online testing system. The system will not permit access to the test other than through the secure browser—under no condition may a student access a test using a non-secure browser. |
| Unable to Establish a Connection With the Test Delivery System | If a computer fails to establish a connection with the test delivery system, a message will be displayed. This is most likely to occur if there is a network-related problem. The causes may include an unplugged network cable or a firewall not allowing access to the site.      |

### **Force-Quit Commands for Secure Browsers**

In the rare event that the secure browser or test becomes unresponsive and you cannot pause the test or close the secure browser, users have the ability to “force quit” the secure browser.

To force the browser to close, use the following keyboard commands. **Reminder:** This will log the student out of the test he or she is taking. When the secure browser is opened again, the student will have to log back in to resume testing.

|  |  |
|--|--|
|  | <p><b>Caution: You are strongly advised against using the force-quit commands, as the secure browser treats this action as an abnormal termination.</b> The secure browser hides features such as the Windows taskbar; if the secure browser is not closed correctly, then the taskbar may not reappear correctly.</p> <p>These commands should be used only if the [Close Secure Browser] button does not work.</p> |
|--|--|

| Force-Quit Commands   |
|---|
| <p>Windows: [Ctrl] + [Alt] + [Shift] + [F10]<br/> Mac OS X: [Ctrl] + [Alt] + [Shift] + [F10]<br/> Linux: [Ctrl] + [Alt] + [Shift] + [Esc]</p>           |
| <p><i>Note for Windows and Mac Users:</i><br/> If you are using a laptop or netbook, you may also need to press the [FN] key before pressing [F10].</p> |

---

## **Appendix H: Multiplication Table**

---

## Appendix H: Multiplication Table

---

A single-digit (1–9) multiplication table is a non-embedded accommodation for grade 4 and above mathematics items. The multiplication table is to be used *only* for students with a documented and persistent calculation disability (i.e., dyscalculia). This table can be printed for students requiring this accommodation

| Multiplication Table |   |    |    |    |    |    |    |    |    |
|----------------------|---|----|----|----|----|----|----|----|----|
| ×                    | 1 | 2  | 3  | 4  | 5  | 6  | 7  | 8  | 9  |
| 1                    | 1 | 2  | 3  | 4  | 5  | 6  | 7  | 8  | 9  |
| 2                    | 2 | 4  | 6  | 8  | 10 | 12 | 14 | 16 | 18 |
| 3                    | 3 | 6  | 9  | 12 | 15 | 18 | 21 | 24 | 27 |
| 4                    | 4 | 8  | 12 | 16 | 20 | 24 | 28 | 32 | 36 |
| 5                    | 5 | 10 | 15 | 20 | 25 | 30 | 35 | 40 | 45 |
| 6                    | 6 | 12 | 18 | 24 | 30 | 36 | 42 | 48 | 54 |
| 7                    | 7 | 14 | 21 | 28 | 35 | 42 | 49 | 56 | 63 |
| 8                    | 8 | 16 | 24 | 32 | 40 | 48 | 56 | 64 | 72 |
| 9                    | 9 | 18 | 27 | 36 | 45 | 54 | 63 | 72 | 81 |

## **Appendix I: Coordinator Checklists**

---

## Appendix I: Coordinator Checklists

### District Test Coordinator (DTC)

The activity checklist below describes all District Test Coordinator (DTC) roles and responsibilities.

|                                | District Test Coordinator Activities  | Reference in Manual   | Estimated Time to Complete | Target Completion Date | Notes/Resources |
|--------------------------------|---|---|----------------------------|------------------------|-----------------|
| <b>Direct Responsibilities</b> |   |   |                            |                        |                 |
| <input type="checkbox"/>       | 1. Notify schools when training materials are available.  | TAM, <a href="#">Section 3.1</a>  |                            |                        |                 |
| <input type="checkbox"/>       | 2. Notify schools when administration manuals are available.  | TAM, <a href="#">Section 3.1</a>  |                            |                        |                 |
| <input type="checkbox"/>       | 3. Review all Smarter Balanced policy and test administration documents.  |   | 2–3 hours                  |                        |                 |
| <input type="checkbox"/>       | 4. Review scheduling and testing requirements with STCs.  | TAM, <a href="#">Section 6.0</a> and 8.2  | 60–90 minutes              |                        |                 |
| <input type="checkbox"/>       | 5. Review training modules and schedule training session for STCs.  | TAM, <a href="#">Section 3.5</a>  | 2–3 hours                  |                        |                 |
| <input type="checkbox"/>       | 6. Review security procedures with STCs and TAs.  | <a href="#">DeSSA Test Security Manual</a> and Training                                       |                            |                        |                 |
| <input type="checkbox"/>       | 7. Work with district technology coordinators to ensure timely computer set up. <ul style="list-style-type: none"> <li>• Conduct network diagnostics.</li> <li>• Download the secure browser (beginning late November or early December).</li> <li>• Verify that schools meet the minimum technology requirements.</li> </ul> | TAM, <a href="#">Section 5.2</a> , and <a href="#">Appendix G: Secure Browser for Testing</a> | 5–10 hours                 |                        |                 |

|                          | District Test Coordinator Activities  | Reference in Manual                        | Estimated Time to Complete | Target Completion Date | Notes/Resources |
|--------------------------|---|--|----------------------------|------------------------|-----------------|
| <input type="checkbox"/> | 8. Work with schools to review DeSSA TIDE student enrollment information.   |  | 2–4 hours                  |                        |                 |
| <input type="checkbox"/> | 9. Perform an equipment needs assessment based on individual student requirements. <ul style="list-style-type: none"> <li>• Work with the STC to identify students who will need specialized equipment for accommodations.</li> <li>• Communicate with the STC/TA to identify the number of headsets needed in order to take the ELA Listening portions of the assessment. Place order for the number of headsets needed plus extra.</li> </ul> | None                                       | 1–2 hours                  |                        |                 |
| <input type="checkbox"/> | 10. Investigate all test improprieties, irregularities, and breaches reported by TAs. <ul style="list-style-type: none"> <li>• Follow reporting procedure according to DeSSA Test Security Manual.</li> </ul>   | <a href="#">DeSSA Test Security Manual</a> | As needed                  |                        |                 |
| <input type="checkbox"/> | 11. Report any test security incident in DeSSA TIDE and report to the appropriate personnel according to the guidelines in the DeSSA Test Security Manual.  | <a href="#">DeSSA Test Security Manual</a> | As needed                  |                        |                 |

|                          | District Test Coordinator Activities  | Reference in Manual | Estimated Time to Complete | Target Completion Date | Notes/Resources |
|--------------------------|---|---------------------|----------------------------|------------------------|-----------------|
| <input type="checkbox"/> | 12. Monitor with the District Technology Coordinator any technical problems to apply resolutions or disseminate information at other school sites prior to testing. | None                |                            |                        |                 |

|                                   | District Test Coordinator Activities  | Reference in Manual                        | Target Completion Date | Notes/Resources |
|-----------------------------------|---|--|------------------------|-----------------|

## School Test Coordinator (STC)

The activity checklist below describes all School Test Coordinator (STC) roles and responsibilities.

|                                | School Test Coordinator Activities  | Reference in Manual              | Estimated Time to Complete | Target Completion Date | Notes/Resources |
|--------------------------------|---|----------------------------------|----------------------------|------------------------|-----------------|
| <b>Direct Responsibilities</b> |   |                                  |                            |                        |                 |
| <input type="checkbox"/>       | 1. Complete all Smarter Balanced training. Review all policy and test administration documents.   | TAM, <a href="#">Section 3.5</a> | 60–90 minutes              |                        |                 |
| <input type="checkbox"/>       | 2. Ensure that all TAs successfully complete the state assessment training for Smarter Balanced assessment. The self-paced, online training modules are available with PDMS.  | TAM, <a href="#">Section 3.5</a> | 2–3 hours                  |                        |                 |
| <input type="checkbox"/>       | 3. Work with technology personnel to ensure timely computer setup: <ul style="list-style-type: none"> <li>Conduct network diagnostics.</li> <li>Download the secure browser.</li> <li>Verify that your school has met the minimum technology requirements.</li> <li>Ensure that other technical issues are resolved before and during testing.</li> </ul> |                                  | 5–10 hours                 |                        |                 |
| <input type="checkbox"/>       | 4. Communicate with the TAs to identify the number of headsets needed for each testing site and ensure that the needed number is available at least two weeks prior to the testing window. <ul style="list-style-type: none"> <li>Headsets are required for the ELA Listening portions of the assessment, for</li> </ul>                                  |                                  | 1–2 hours                  |                        |                 |

|                          | School Test Coordinator Activities  | Reference in Manual                                | Estimated Time to Complete | Target Completion Date | Notes/Resources |
|--------------------------|---|--|----------------------------|------------------------|-----------------|
|                          | <p>students who require text-to-speech, or for students requiring audio glossaries (math only)</p> <ul style="list-style-type: none"> <li>Communicate with the DTC to identify the number of headsets needed.</li> </ul>          |  |                            |                        |                 |
| <input type="checkbox"/> | <p>5. Perform an equipment needs check based on individual student requirements.</p> <ul style="list-style-type: none"> <li>Work with TAs to identify students who will need specialized equipment for accommodations.</li> </ul> | None   | 1–2 hours                  |                        |                 |
| <input type="checkbox"/> | <p>6. Based on the test administration windows, work with TAs and DTCs to establish a testing schedule.</p>   |  | 2–4 hours                  |                        |                 |
| <input type="checkbox"/> | <p>7. Work with TAs to review student information in DeSSA TIDE applications before students are tested to ensure that correct student information and test settings for designated supports and accommodations are correct.</p>  |  | 2–4 hours                  |                        |                 |
| <input type="checkbox"/> | <p>8. Establish a place to test those students who need a separate test setting.</p>  | <a href="#">Accessibility Guidelines for DeSSA</a> | 1–2 hours                  |                        |                 |
| <input type="checkbox"/> | <p>9. Work with TAs to plan a quiet activity for each test session for students who finish early.</p>   | None   | 30 minutes                 |                        |                 |

|                          | School Test Coordinator Activities   | Reference in Manual                        | Estimated Time to Complete                                | Target Completion Date | Notes/Resources  |
|--------------------------|--|--|---|------------------------|--|
| <input type="checkbox"/> | 10. All tests will have CAT items plus a PT with a classroom-based activity. <ul style="list-style-type: none"> <li>Download and review the classroom activity for your grade(s).</li> <li>Work with your TAs to plan the administration of the classroom activity.</li> </ul> |  | 60 minutes planning the day prior to administering the PT |                        | Administration of the CAT items plus a PT with a classroom-based activity will require advance preparations. |
| <input type="checkbox"/> | 11. Ensure proper handling of all printed test materials and scratch paper. Collect all test materials on each day of testing to keep in a secure location until after the test session, and then destroy according to test security manual.                                   | <a href="#">DeSSA Test Security Manual</a> |   |                        |  |
| <input type="checkbox"/> | 12. Ensure adherence to all security policies. <ul style="list-style-type: none"> <li>Ensure that all TAs read and signed state security agreements</li> </ul>   | <a href="#">DeSSA Test Security Manual</a> |   |                        |  |
| <input type="checkbox"/> | 13. Document any impropriety, irregularity, or breach and report to the DTC immediately after learning of the incident. <ul style="list-style-type: none"> <li>Working with the DTC, enter incidents in DeSSA TIDE.</li> </ul>   | <a href="#">DeSSA Test Security Manual</a> | As needed   |                        |  |
| <input type="checkbox"/> | 14. Monitor testing progress during the testing window and ensure that all students participate as appropriate, addressing student issues as needed.   | None                                       | As needed   |                        |  |

|                          | School Test Coordinator Activities  | Reference in Manual                        | Estimated Time to Complete | Target Completion Date | Notes/Resources |
|--------------------------|---|--|----------------------------|------------------------|-----------------|
| <input type="checkbox"/> | 15. Raise any technical issues with the school technology coordinator for resolution.   | None                                       | As needed                  |                        |                 |
| <input type="checkbox"/> | 16. Review, investigate, and report on all potential improprieties, irregularities, and breaches reported by the TA. Mitigate incidents when appropriate. | <a href="#">DeSSA Test Security Manual</a> | As needed                  |                        |                 |

|                                   | School Test Coordinator Activities   | Reference in Manual                        | Target Completion Date | Notes/Resources |
|-----------------------------------|--|--|------------------------|-----------------|
| <b>Oversight Responsibilities</b> |  |  |                        |                 |
| <input type="checkbox"/>          | 17. Verify that TAs have verified student settings for designated supports and accommodations in DeSSA TIDE.   |  |                        |                 |
| <input type="checkbox"/>          | 18. Verify that TAs or other instructional staff has administered the classroom activity.  | None                                       |                        |                 |
| <input type="checkbox"/>          | 19. Verify that TAs have scheduled make-up sessions of the classroom activity for students who were absent for the first administration.   | None                                       |                        |                 |
| <input type="checkbox"/>          | 20. Assist TAs in taking proper measures to ensure that students have access only to allowable non-embedded resources during testing.  | None                                       |                        |                 |
| <input type="checkbox"/>          | 21. Verify that TAs are adhering to all test security policies and practices according to the Test Security Manual. The STC must have access to the Assessment Request System, which is used to document any improprieties, irregularities, or breaches occur. | <a href="#">DeSSA Test Security Manual</a> |                        |                 |

## Test Administrator (TA)

The activity checklist below describes all Test Administrator (TA) roles and responsibilities.

|                          | Test Administrator Activities  | Reference in Manual  | Estimated Time to Complete | Target Completion Date | Notes/Resources |
|--------------------------|--|--|----------------------------|------------------------|-----------------|
| <input type="checkbox"/> | 1. Review all Smarter Balanced policy and test administration documents, particularly the Test Administration Manual (TAM).  | TAM, <a href="#">Section 3.4</a>                                   | 60–90 minutes              |                        |                 |
| <input type="checkbox"/> | 2. Review the training modules and complete all required assessment training.  | TAM, <a href="#">Section 3.5</a>                                   | 2–3 hours                  |                        |                 |
| <input type="checkbox"/> | 3. Show students the videos “What Is a CAT” and “What are Universal Tools?”  |  | 1 hour                     |                        |                 |
| <input type="checkbox"/> | 4. Provide students with a walk-through of the Training Test and/or Practice Test for familiarity with navigation of the system and tools.   | TAM, <a href="#">Appendix K: Practice Tests and Training Tests</a> | 1 hour                     |                        |                 |
| <input type="checkbox"/> | 5. Perform an equipment needs check based on individual student requirements. <ul style="list-style-type: none"> <li>Work with the STC to identify students who will need specialized equipment for accommodations.</li> </ul> | None   | 1–2 hours                  |                        |                 |

|                          | Test Administrator Activities  | Reference in Manual | Estimated Time to Complete | Target Completion Date | Notes/Resources   |
|--------------------------|--|---------------------|----------------------------|------------------------|---|
| <input type="checkbox"/> | 6. Work with the STC to determine precise testing schedules based on the test administration windows selected by the school schedule. <ul style="list-style-type: none"> <li>Make sure your students' test administration schedule includes allowable breaks and time for the classroom activity prior to the performance task.</li> </ul> |                     |                            |                        |   |
| <input type="checkbox"/> | 7. Confirm that you have received your DeSSA TIDE login information. You should have received an automated e-mail from the Smarter Balanced Help Desk notifying you of how to log in to DeSSA TIDE. This username and password will also be used for the Online Testing System.  |                     | 2–4 hours                  |                        | If you have not received this information, please check your spam/junk e-mail folder to see if it was mistakenly routed there. If not, check with your STC. |
| <input type="checkbox"/> | 8. Work with your STC to ensure that each student has an SSID number and has been loaded into DeSSA TIDE.  |                     | 2–4 hours                  |                        |   |
| <input type="checkbox"/> | 9. Confirm each student's test settings for designated supports and accommodations in DeSSA TIDE against their IEP or other relevant documentation as appropriate.   |                     | 2–4 hours                  |                        |   |
| <input type="checkbox"/> | 10. Ensure that the DeSSA Secure Browser icon on each testing computer.  |                     |                            |                        | Check with your STC or school technology coordinator if the [DeSSA Secure Browser] icon is missing.   |

|                          | Test Administrator Activities  | Reference in Manual              | Estimated Time to Complete   | Target Completion Date | Notes/Resources  |
|--------------------------|--|----------------------------------|--|------------------------|--|
| <input type="checkbox"/> | <p>11. Communicate to students the need for headsets in order to take the ELA Listening portions of the assessment.</p> <ul style="list-style-type: none"> <li>Identify any students who may not have their own headsets and make arrangements with the school to have headsets available for those students. Counts should be determined prior to testing.</li> <li>Also, have extra headsets on hand for students who may forget to bring theirs.</li> <li>Send reminders several days before and the day prior to testing to ensure students remember to bring headsets.</li> </ul> | None                             |  |                        |  |
| <input type="checkbox"/> | <p>12. All students will complete CAT assessment, the classroom activity, and the PT.</p> <ul style="list-style-type: none"> <li>Obtain the classroom activity from your STC and plan for the administration.</li> <li>Administer the classroom activity.</li> </ul>   | TAM, <a href="#">Section 6.0</a> | <p>60 minutes planning the day prior to administering the PT</p> <p>30 minutes actual classroom activity administration time</p> |                        | Administration of the CAT items plus a PT with a classroom-based activity will require advance preparations. |

|                          | Test Administrator Activities  | Reference in Manual  | Estimated Time to Complete | Target Completion Date | Notes/Resources   |
|--------------------------|--|--|----------------------------|------------------------|---|
| <input type="checkbox"/> | 13. Plan a quiet activity for each test session for students who finish early. The activity should not be related to the test being given. For example, students who finish early may work on assignments for unrelated subjects or read a book.   | None   | 15–30 minutes              |                        | See Appendix E.   |
| <input type="checkbox"/> | 14. Prior to administration, check all computers that will be used and close all applications except those identified as necessary by the school's Technology Coordinator. Make sure that no computer has dual monitors. <ul style="list-style-type: none"> <li>Work with your STC to set system volume prior to students launching the secure browser to ensure students can hear the audio portions of the ELA segment.</li> </ul> | None   | 1–2 hours                  |                        | The TA should open the secure browser on each computer after closing any unnecessary applications.  |
| <input type="checkbox"/> | 15. Administer the Smarter assessments following the script and directions for administration. Provide any necessary non-embedded designated supports and accommodation.   | See <a href="#">Appendix L:: Directions for Administration (Printable Version)</a> for pull-out copy |                            |                        | Provide students with scratch paper for all test sessions. Also, provide students in grade 6 and above graph paper for the mathematics assessments. |
| <input type="checkbox"/> | 16. On the day of testing, verify that the students have their login information (first name, SSID, and session ID).   |  |                            |                        |   |

|                          | Test Administrator Activities   | Reference in Manual                        | Estimated Time to Complete | Target Completion Date | Notes/Resources   |
|--------------------------|---|--|----------------------------|------------------------|---|
| <input type="checkbox"/> | 17. Review all guidelines for creating a secure test environment. <ul style="list-style-type: none"> <li>Review all security procedures and guidelines in the DeSSA Test Security Manual.</li> <li>Carefully read and sign a test security agreement if required by your state.</li> </ul>  | <a href="#">DeSSA Test Security Manual</a> |                            |                        |   |
| <input type="checkbox"/> | 18. Make sure the physical conditions of the testing room are satisfactory. <ul style="list-style-type: none"> <li>Make sure that no instructional materials directly related to the content of the tests are visible.</li> <li>Students should be seated so there is enough space between them or provide desktop partitions to minimize opportunities to look at each other's screen.</li> <li>Actively monitor students throughout the test sessions.</li> <li>Students who are not being tested may not be in the room where a test is being administered.</li> </ul> | TAM, Section 8.2                           |                            |                        | Make sure students clear their desks and put away all books, backpacks, purses, cell phones, electronic devices of any kind, and other materials not needed for the test.<br><br>Ensure that students do not access unauthorized electronic devices (such as cell phones) at any time during testing. |
| <input type="checkbox"/> | 19. Report any testing improprieties, irregularities, and breaches to the STC and DTC in writing immediately following an impropriety, irregularity, or breach.   | <a href="#">DeSSA Test Security Manual</a> |                            |                        |   |

## **Appendix J: Item Types**

---

## Appendix J: Item Types

### Item and Response Types

As students engage with the Smarter assessments, they will be asked test questions that require them to respond in several ways, some of which may be new to students. Smarter Balanced has produced several resources that teachers and students can use to get ready for the test, including a Practice Test and a Training Test. As pointed out in [Appendix L: Directions for Administration \(Printable Version\)](#) of this manual, “It is highly recommended that ALL students access the Training Test Site before taking the test.” Doing so will provide students an opportunity to view and practice each of the item types.

The Practice Tests and Training Tests are available on the [DeSSA Portal](#).

### Summary of Item Types and How to Provide Responses

[Table J-1](#) lists the different “Item Types” and briefly describes each one.

|   |   |
|---|---|
|  | <b>Note:</b> Not all tests will necessarily include all item types. |
|---|---|

**Table J-1: Item and Scoring Types**

| Content Area        | Type of Item  | Brief Description of How to Respond       |
|---------------------|---|---|
| ELA and Mathematics | Multiple choice, single correct response                      | Four-option multiple choice               |
|                     | Multiple choice, multiple correct responses                   | Multiple-option selected response         |
|                     | Matching tables (with a variation True/False or Yes/No)       | Table format, click entry                 |
|                     | Short text  | Keyboard alphanumeric entry               |
| Mathematics Only    | Drag-and-drop   | Drag-and-drop single or multiple elements |
|                     | Hot spot  | Select text                               |
|                     | Table fill in   | Table format, click entry                 |
|                     | Graphing  | Plot points and/or draw lines             |
|                     | Equation/numeric  | Enter equation or numeric response        |
| ELA Only            | Two-part multiple choice, with evidence-based response (EBSR) | Two part, multiple choice                 |
|                     | Hot text  | Select and order text                     |
|                     | Essay   | Keyboard alphanumeric entry               |

[Table J-2](#) catalogs each specific item type and briefly describes the student actions necessary to provide a response.

**Table J-2: Item Types in the Practice/Training Test**

| <b>Content Area</b> | <b>Item Type</b>   | <b>How Student Responds</b>  | <b>Practice Test Examples</b>  | <b>Training Test Examples</b>  |
|---------------------|--|--|--|--|
| ELA and Math        | Multiple choice, single correct response (radio buttons) | <ul style="list-style-type: none"> <li>• Select the radio button corresponding to an option.</li> <li>• To deselect an option, select a different radio button.</li> <li>• Select only one option.</li> </ul>      | G3 ELA, Question 4<br>G3 Math, Question 10<br>G4 ELA, Question 2<br>G4 Math, Question 2<br>G5 ELA, Question 2<br>G5 Math, Question 1<br>G6 ELA, Question 1<br>G6 Math, Question 1<br>G7 ELA, Question 2<br>G7 Math, Question 3<br>G8 ELA, Question 2<br>G8 Math, Question 4<br>G11 ELA, Question 1<br>G11 Math, Question 24    | G3–5 ELA, Question 2, Part A<br>G3–5 Math, Question 1<br>G6–8, ELA, Question 4<br>G6–8 Math, Question 7<br>High School ELA, Question 4 |

### Technical Skills to Access Embedded Resources

To access some of the embedded resources, such as strikethrough, highlighter, American Sign Language videos, and text-to-speech, that are available to help work through these item types, students may need to access the “right-click context menu.” Please note the method to access the menu is dependent on the student’s device type. Devices and methods are shown in [Table J-3](#).

**Table J-3: Right-Click Context Menu**

| Device Type  | Method to Access Right-Click Context Menu                                   |
|--|---|
| Windows-based desktop or laptop (two-button mouse) | Click on the right mouse button.  |
| Mac OS-based desktop or laptop (one-button mouse)  | Hold down [Ctrl] key on keyboard, then click the mouse button.              |
| iPad tablet (touchscreen)                          | Tap on the menu in the upper-left corner of the secure browser application. |
| Android-based tablet (touchscreen)                 | Tap on the menu in the upper-left corner of the secure browser application. |
| Chromebook (trackpad)                              | Hold down the [Alt] key on the keyboard, and tap the trackpad.              |

---

## **Appendix K: Practice Tests and Training Tests**

---

## Appendix K: Practice Tests and Training Tests

---

In preparation for the Smarter assessment and to expose students to the various item response types in ELA and mathematics, refer to [Appendix J: Item Types](#) for item types, it is highly recommended that all students access the Practice and Training Tests on the [DeSSA Portal](#). Each resource offers students a unique opportunity to experience a test in a manner similar to what they will see on the test and prepare students for testing. These resources will not be scored and rubrics will be available on the DeSSA Portal (<http://de.portal.airast.org/>).

### ***Overview of the Practice Tests***

The Smarter Practice Tests allow educators and students to experience a full grade-level assessment and gain insight into the Smarter assessment. The Practice Tests mirror the summative assessment. Each grade-level assessment includes a variety of question types and difficulty—approximately 30 items each in ELA and mathematics—as well as an ELA and mathematics performance task at each grade level, that is grades 3–8 and 11. The Practice Test also includes a comprehensive reflection of embedded universal tools, designated supports, and accommodations. Students should also be provided with any non-embedded universal tools, designated supports, and accommodations as allowed on the all Smarter assessments including interim and summative.

### ***Overview of the Training Tests***

The Training Tests are designed to provide students and educators with an opportunity to quickly familiarize themselves with the software and navigational tools that they will use on the Smarter assessments. The Training Tests are organized by grade bands, that is grades 3–5, 6–8, and high school. Each test contains 14 to 15 questions.

On the student Training Test website, the questions were selected to provide students with an opportunity to practice a range of question types. The Training Tests do not contain performance tasks. Similar to the Practice Tests, the Training Tests include all embedded universal tools, designated supports, and accommodations. Note that the text-to-speech functionality is available when using the Training Test through the secure browser. The student Training Test site may be used by anyone. Students can log in as guests or use their first name and SSID. Students who log in using their credentials may log in to a guest session or into a proctored training session with a training session ID set up through the TA Training Test Site.

### ***Test Administrator (TA) Login for Practice and Training Test***

The Test Administrator Training Test provides an opportunity for TAs to practice setting up a testing session. Braille tests can only be accessed through the TA site. Access to the Test Administrator Training Test site requires specific login credentials provided by the State. This site may only be used by authorized state-level users, DAs, DTCs, STCs, and TAs.

For additional information about how to set up a Practice Test session, refer to the Test Administrator User Guide located on the [DeSSA Portal](#).

**Caution: Do NOT use the live Student Interface or TA Interface for practice.** Doing so constitutes a test security incident (breach). For all Training Test sessions, use the TA Training Site and the Training Tests.

It is **highly recommended** that **all** students access the Training Test Site once, at a minimum, before taking the test. The Training Tests will be especially beneficial for those students who have not previously participated in online testing. Teachers are encouraged to conduct a group walk-through of the Smarter Balanced Training Test or Practice Test with their students to promote familiarity with the testing format and basic test rules and to allow for free and open communication on the testing process and/or content—refer to [Section 6.4 General Rules of Online Testing](#). This walk-through of the Practice and Training Tests is a perfect opportunity for TAs to describe the limitations to the support they will be able to provide and the verbal interactions they can have with students during the live testing session.

## **Appendix L: Directions for Administration (Printable Version)**

---

## Appendix L: Directions for Administration (Printable Version)

This document provides a shortened version of the information provided in the During Testing section of this manual, which is suitable for printing and using during the Smarter test administration. All instructions to be read to students are exactly the same.

| Before Testing   |  |
|--|--|
| Make sure you are prepared for testing.  | <ul style="list-style-type: none"> <li>Practice administering an assessment on the TA Training Site.</li> <li>Know what your students will see. Try out the practice and training tests.</li> <li>Complete the prerecorded training session for any updates to the Test Administration procedures. Please sign the DeSSA Security Forms.</li> <li>Download and read relevant user guides and manuals, including this Online Test Administration Manual.</li> </ul> |
| Make sure students are prepared for testing.   | <ul style="list-style-type: none"> <li>Make sure all your students have tried the grade-appropriate practice test and training test before testing.</li> </ul>   |
| Get a list of secure State Student Identification Numbers (SSIDs).                                 | <ul style="list-style-type: none"> <li>Students will log in to the online system using their legal first names, their 10-digit Statewide Student Identification Numbers (SSID), and a test Session ID. Talk to your School Administrator about how you will obtain this list. Remember that student personal information, including (SSIDs), is confidential.</li> </ul>   |
| Get a list of all Smarter Assessment Accommodations for any students who will be testing with you. | <ul style="list-style-type: none"> <li>Remember to validate and review all student accommodations to make sure a student has the correct accommodations available in DeSSA TIDE. Do not begin testing any students until all accommodations have been verified and are available in DeSSA TIDE.</li> </ul>   |

| During Testing   |  |
|--|--|
| Launch the secure browser on each computer that students will use for testing. | <ul style="list-style-type: none"> <li>Before students arrive to take a test, make sure that the student login screen is showing on each computer. Click the DeSSA icon on each computer to open the secure browser. It is recommended that TAs, rather than students, launch the browsers in order to prevent students from accessing other applications. Once the secure browser is launched, students can no longer access other applications.</li> </ul> |
| Distribute pencils and scratch paper, if needed.                               | <ul style="list-style-type: none"> <li>During the Smarter test, scratch paper may be used for any of the tests.</li> </ul>   |
| Log in to the TA Site.   | <ul style="list-style-type: none"> <li>Using your regular username and password, log in to the TA Site at <a href="http://de.portal.airast.org/">http://de.portal.airast.org/</a>. If you do not have a username and password, contact your district information security officer (ISO).</li> </ul>  |
| Create a test session.   | <ul style="list-style-type: none"> <li>In the upper-left corner, select the test(s) that you will administer in the test session (e.g., Smarter Mathematics). After you have selected the test(s) that should be included, click [Start Session]. A Session ID will automatically generate and appear in the top center of the screen. This Session ID will have four letters followed by a</li> </ul>   |

| <b>During Testing</b>   |   |
|---|---|
|   | dash and then a number (for example, DESSA-XXXX-XX).  |
| Read directions from the Online Test Administration Manual to students. | <ul style="list-style-type: none"> <li>• SAY: Today, you will take the Smarter Balanced [insert name of ELA or mathematics and CAT or PT] test. You will be given a test session ID that is required to start the test. If you need an individual break during the test, raise your hand and wait for my instructions and permission.</li> <li>• Once you have logged in, you will have to wait for me to approve the test before you can start. I will be checking that you have correctly entered the test session ID and other information.</li> </ul>   |
| Give students the test session ID.                                      | <ul style="list-style-type: none"> <li>• Write the test session ID for the test(s) you will be giving on the board or some other place where students can see it. Make sure students know that they must enter the test session ID exactly as it is written, without extra spaces or characters.</li> <li>• SAY: Enter your legal first name (not your nickname), your SSID, and the test session ID that I provided. Raise your hand if you cannot see these numbers well enough to type them on your keyboard. Please do not share your SSID, as it is your own private information. Once you have successfully logged in, you will see a screen with your full legal name, birth date, SSID, school, and grade. If all of the information on your screen is correct, select YES to continue. If any of the information is incorrect, please raise your hand so that you can show me what is wrong.</li> <li>• On the next screen, select the test you will be taking today labeled [Insert Name Of Test] (e.g., ELA Grade 4 PT), and then click [Start Test]. After you have selected your test, you will see a screen with a moving bar and message saying that you are waiting for Test Administrator approval. This step helps ensure that you are taking the correct test. Please wait quietly while I verify each of your tests.</li> <li>• After I approve you to begin testing, you will see a screen asking you to confirm your test subject and settings. If all the information is correct, you may select [Yes, Start My Test]. If any of it is incorrect, please raise your hand, and I will be with you shortly.</li> </ul> |
| Approve students for testing.   | <ul style="list-style-type: none"> <li>• Students can now log in using their names, their ID numbers, and the test session ID. The upper-right corner of your screen will always display a list of students who are awaiting approval at any time. Once students begin appearing in the preview box, you can click [Approvals (#)] to open the Approvals pop-up window. Review each student's test settings and edit as necessary. You can either click [Approve] for each individual student or, when you are satisfied that all students in the list can be approved, click [Approve All Students]. To refresh the list of students awaiting approval at any time, click the [Refresh] button at the top of the pop-up window.</li> <li>• SAY: (Only for ELA test) Next you should see a screen that prompts you to verify that the audio on your computer</li> </ul>   |

| During Testing               |   |
|------------------------------|---|
|                              | <p>is working. Put your headsets on and select the [Click on the sound icon to hear the sound] icon. If you hear the chime, select [Yes]. If not, raise your hand, and I will be with you shortly.</p> <ul style="list-style-type: none"> <li>• SAY: Before your test appears, you will see a tutorial page listing the test tools and buttons that you may use during the test or that will appear on the test. Please read this carefully. You can also find this information during your test by clicking the [Help] button in the top right corner.</li> <li>• You must answer each question on the screen before going on to the next question. During the test, you may see a page with no test questions. Follow the directions on the page to continue taking the test.</li> <li>• If you are unsure of an answer, provide what you think is the best answer—there is no penalty for guessing. If you would like to review that answer at a later time, mark the item for review by clicking the box next to the flag in the upper-right corner of the screen before going on to the next question. Flagging the item will remind you to go back and decide whether you need to change the answer during this test segment.</li> <li>• You may pause at any point in the test by clicking [Pause] rather than [Next] after answering an item. [The following statement only applies to the CAT.] The [Pause] button is used to stop the test. Note that pausing for more than 20 minutes will prevent you from changing any answer on previous pages of the test. Please raise your hand if you need a break and ask me prior to clicking [Pause].</li> <li>• Your answers need to be your own work. Please keep your eyes on your own test and remember that there should be no talking.</li> <li>• Please keep in mind that this test is divided into segments. When you get to the end of each segment, you will be prompted to review your answers before moving on. Once you submit your answers and move on to the next segment, you will not be able to return to the previous segment.</li> <li>• When you are ready to begin your test, click [Begin Test Now] at the bottom of the page.</li> </ul> |
| Monitor student progress.    | <ul style="list-style-type: none"> <li>• The TA Site will not show test questions or scores but will let you see how many questions have been delivered to each student (e.g., question 24 of 40). The TA Site is designed to automatically refresh every minute. You can manually refresh at any time by clicking the [Refresh] button at the top left of the page. If you notice that a student is off task, you may say the following statement to that student.</li> <li>• SAY: It is important that you do your best. Do you need to pause the test and take a break?</li> </ul>   |
| Student asks for assistance. | <ul style="list-style-type: none"> <li>• SAY: I can't help with the test. Try to do your best.</li> </ul>   |

| During Testing  |  |
|---|--|
| Give students a five-minute warning before the end of the test session. | <ul style="list-style-type: none"><li>• SAY: We are nearing the end of this testing period. Please review any completed or marked items now. If you have not finished, you will have the chance to finish the test at another time. Do not submit your test unless you are done answering questions.</li></ul>   |
| End the test session and log out of the TA Site.                        | <ul style="list-style-type: none"><li>• SAY: This test session is now over. If you have not finished, click [Pause], and you will be able to finish at another time. If you have finished, click [Submit Test]. I will now collect any scratch paper or other materials.</li><li>• Then click [Stop Session] to end the test session and pause any student tests in your session that are still in progress. When you are finished, you can log out of the TA Site by clicking the [Logout] button at the top right.</li></ul> |
| Collect any used scratch paper.   | <ul style="list-style-type: none"><li>• Used scratch paper must be shredded and disposed of after testing.</li></ul>   |
